US-400 resurfacing project from Dodge City to Ford

Work has started on a resurfacing project on U.S. 400 from Dodge City to Ford. The contractor, Vance Brothers, Inc. of Kansas City, Missouri, is working from the east side of Fort Dodge, east to Ford and then back to Dodge City.

During construction between Fort Dodge and Ford, traffic will be limited to one lane through the work zone, guided by a pilot car. Drivers can expect delays of 15 minutes or less. When the contractor is working in the four-lane section from the U.S. 400/56/283 junction to the railroad crossing west of Fort Dodge, two-way traffic will be maintained. The Kansas DOT urges drivers to be alert, pay attention to all work zone warning signs, slow down when approaching a work zone and be prepared to stop.

Cost of this T-WORKS preservation project is roughly \$751,000. KDOT expects work on this project to be completed by mid-October, depending on weather.

If you have questions on this project, you can call Joyce Muhlenbruch, Construction Engineer, at 620-227-6122 or Kirk Hutchinson, KDOT Southwest Public Affairs Manager, at 1-877-550-5368 (toll free).

You can stay aware of all road construction projects across Kansas at www.kandrive.org or by calling 5-1-1. To learn more about this and other T-WORKS projects, visit www.ksdot.org/tworks.
