K-95 maintenance scheduled to begin in Scott County

Maintenance is expected to begin on K-95 in Scott County as early as Tuesday, August 1, weather permitting. This will include a hot-in-place recycle followed by chip seal beginning at the south intersection of U.S.83 and K-95 and continuing 6.5 miles to the north intersection of U.S. 83 and K-95.

Traffic will be reduced to one-lane with traffic guided by a pilot car during the project with an expected delay of 15 minutes or less. KDOT urges drivers to be alert, pay attention to work zone warning signs, slow down when approaching work zones and be prepared to stop.

Dustrol Inc. of Towanda is the primary contractor on the project with an approximate construction cost of \$374,000. The project is expected to be completed by late August, weather permitting.

For more information on this project, please contact Craig Schlott at (620) 272-7285 or Lisa Knoll, KDOT District 6 Public Affairs Manager at (620) 765-7074 or lisa.knoll@ks.gov.
