Survey work starting on U.S. 24 near Downs

The Kansas Department of Transportation plans to begin a field survey along U.S. 24 in Osborne County the week of April 12.

Survey crews will be gathering information for the detailed design of a proposed bridge project approximately 1.5 miles east of the K-181 junction near Downs. Activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor. KDOT expects work to be complete by May 5.

Crews will contact property owners or tenants for permission to enter private property if access is needed. Kara LaRiviere, field survey project manager, will oversee the survey for KDOT.

Persons with questions may contact KDOT public affairs manager Lisa Mussman at 785-874-8107 or lisa.mussman@ks.gov.
