# K-43 culvert replacement in Dickinson County

Monday, October 26<sup>th</sup> and Tuesday, October 27<sup>th</sup> a culvert on K-43 in Dickinson County will be removed and replaced. The project begins 1.25 miles north of the city of Hope and the work zone will be between 800 Ave. and 900 Ave. A KDOT Maintenance crew will remove the failed existing metal pipe and replace it with a concrete pipe culvert.

Traffic will be reduced to one-lane each day and will be controlled by flagmen. There will be a 12' width restriction within the work zone. Continued shoulder work may take place over the following 10 days but should not affect the flow of traffic. Plans call for the project to be completed on the 27<sup>th</sup> weather permitting.

This project is funded through T-WORKS. For more information concerning the T-works program and specific projects visit the T-works web site at [www.ksdot.org/tworks](http://www.ksdot.org/tworks).
