Surface Recycle & Chip Seal for K-80 in Clay County

KDOT will apply a Surface Recycle followed by a Chip Seal on K-80 in Clay County beginning August 3, 2015. The project begins at the east Morganville city limit then east to the K-80/K-15 junction. Traffic control will be provided by flaggers and a pilot car with a 12' lane width restriction during daylight hours. Plans call for the project to be completed on or about August 21st weather permitting.

The purpose of this project is to extend the life of the highway and improve ride quality.

This project is funded through T-WORKS. For more information concerning the T-works program and specific projects visit the T-works web site at www.ksdot.org/tworks.
