New 2017-2018 State Transportation Maps available

There's no place like Kansas, and there's nothing like an Official State Transportation Map of the sunflower state to help get you where you want to go.

The new 2017-2018 Kansas Official State Transportation Map, published by the Kansas Department of Transportation, highlights numerous tourist and scenic locations across the state, including the latest Scenic Byway, the Land and Sky Scenic Byway, in northwest Kansas.

The map includes city and county indexes as well as a distance map that allows motorists to pick the best route to their destination. Visitor resources, helpful phone numbers and websites as well as lists of state recreation areas and museums are also provided.

On the back of the map are inset maps of Kansas City, Wichita, Topeka and 13 other cities. There is also road condition information and details on how to get roadside assistance.

Maps will be available at various travel information centers, attractions and other locations across the state. They can also be requested on the KDOT website at <http://www.ksdot.org/maps.asp>.

A limited supply of 2015-2016 maps is still available for schools and other groups to use as a learning tool. To receive old maps, please send an email request to publicinfo@ksdot.org.
