

APPENDIX

to the

KANSAS DEPARTMENT OF TRANSPORTATION'S

2010 Annual Report

This appendix contains additional transportation information including:

- Financial compliance
- Project Selection Criteria
- Project list detailing projects scheduled for improvement during FY 2010-2012, projects completed in FY 2009 and projects under construction as of October 31, 2009. Also list of aviation, rail and public transit projects.
- Transportation Revolving Fund
- Modal information

Section A

Financial Compliance

Each year the Department provides to the governor and the Legislature summary financial information and a statement of assurance that the Department has prepared a comprehensive financial report of all funds for the preceding year. The financial report must include a report by independent public accountants attesting that the financial statements present fairly the financial position of the Department in conformity with generally accepted accounting principles (GAAP).

The Department has prepared a Comprehensive Annual Financial Report (CAFR) for Fiscal Year (FY) 2009. Included in the CAFR is the report of the independent public accountants,

Berberich Trahan & Co., P.A. and Allen Gibbs & Houlik, L.C. attesting that the financial statements present fairly the financial position of the Department in conformity with accounting principles generally accepted in the United States of America. Also included is a certificate of achievement awarded to the Department for excellence in financial reporting for the 2008 CAFR. The award marks the 21th consecutive year the Department has received the award for excellence in financial reporting.

The complete CAFR is available by contacting KDOT's Office of Transportation Information at 785-296-3585 (Voice)/(TTY). The CAFR is also available on KDOT's Web site at <http://www.ksdot.org/publications.asp>, under Reports and Studies.

The Comprehensive Transportation Program is based on 10-year projections. The schedule below is a snapshot solely comparing FY 2009 revenues and expenditures to FY 2008 revenue and expenditures.

FY 2009 FINANCIAL INFORMATION

The following schedule is a summary of revenues and expenditures for FY 2009 and the amount and percent of increases or decreases in relation to prior year amounts. All amounts are in thousands.

<u>REVENUES</u>	<u>2008</u>	<u>Percent of Total</u>	<u>Increase (Decrease) from prior year</u>	
			<u>Amount</u>	<u>Percent</u>
Motor Fuel Taxes	\$ 417,854	31 %	\$ (9,991)	(2) %
Vehicle Registrations and Permits	170,256	13	(2,097)	(1)
Intergovernmental	393,084	31	(107,554)	(21)
Sales and Use Taxes	268,259	21	(15,338)	(5)
Investment Earnings	22,862	2	(3,298)	(13)
Motor Carrier Property Taxes	6,661	1	(3,403)	0
Other	7,247	1	(2,846)	(28)
Transfers from Other State Funds	1,462	0	(198)	(12)
Total revenues	\$ 1,287,685	100 %	\$ (144,725)	(10) %

<u>EXPENDITURES</u>	<u>2008</u>	<u>Percent of Total</u>	<u>Increase (Decrease) from prior year</u>	
			<u>Amount</u>	<u>Percent</u>
Current Operating				
Maintenance	300,205	21 %	\$ (6,401)	(2) %
Construction	458,781	32	(17,423)	(4)
Local Support	319,505	23	4,290	1
Rail, Air and Public Trans.	11,387	1	280	3
Management	67,990	5	4,283	7
Debt Service				
Principal	52,990	4	2,660	5
Interest and fees	77,912	5	2,135	3
Transfers to Other State Funds	119,826	9	16,919	16
Total expenditures	1,408,596	100 %	\$ 6,743	0 %
OTHER SOURCES (uses)				
Issuance of refunding bonds	11,410	36 %	11,410	
Refunded bonds redeemed	20,270	64	20,270	
Total other	31,680	100 %	31,680	
Excess (Deficiency) of Revenues and Other Sources Over Expenditures	\$ (89,231)	100 %	\$ (119,788)	(581) %

Project Selection Criteria

Construction and maintenance projects selected for FY 2010-2012 will focus on protecting the public’s investment in its highway system by preserving the “as built” condition as long as possible. These projects primarily include Substantial Maintenance and Priority Bridge projects.

The main factors considered when selecting these projects are the pavement or bridge conditions, such as pavement rutting or cracking and bridge joint repair or load ratings. Keeping these structures in good condition is vital - without proper maintenance, the cost for major repairs and/or replacement can be several times greater than the cost of timely maintenance. There are also small set-aside programs to address signing, pavement markings and rail-road crossing surfaces.

While most projects that are scheduled in FY 2010-2012 focus on preserving existing highways and bridges, a few expansion projects that had design work under way during the Comprehensive Transportation Program will also be initiated. There will also be some projects that have federal earmarked funds.

As part of any new transportation funding program, a more strategic approach to highway selection will be proposed that combines KDOT’s historically strong engineering-based formulas with additional considerations of regional priorities and economic impacts. It will include three project types:

- **Preservation** – taking care of what we have (pavement rehabilitation and reconstruction and bridge repairs and replacements).
- **Modernization** – improving the existing roadway (adding shoulders, flattening hills, straightening curves, and improving intersections).
- **Expansion** – adding something new (lanes and interchanges).

The initial recommendation is that the criteria be weighted among the categories as follows:

	Engineering Factors	Local Consultation	Economic Impact
Preservation	100%	-	-
Modernization	80%	20%	-
Expansion	50%	25%	25%

Project Listings

The proposed work plan for the current fiscal year and for the next two years can be found starting on page B-1.

Transportation Revolving Fund

The Transportation Revolving Fund is a statewide revolving loan fund that provides low cost loans to local units of government for financing road and bridge improvements.

The improvement may be on or off the State Highway System. Since the first loan in December 2003, the fund has provided 101 loans to 53 cities and counties. The fund has \$125.3 million in executed loans with interest rates ranging from 3.55 percent to 4.41 percent.

Modal Information

Public Transportation

One state and three federal public transit programs provide services to the citizens of Kansas who depend upon public transportation. Without these programs, many citizens would have no way to make medical appointments, hold a job, shop, or be self-sufficient.

Federal Transit Administration (FTA) 49 U.S.C. 5311 provides federal monies to support nonurban area (under 50,000 population) transportation programs that serve elderly persons and persons with disabilities while also providing the general public with an equal opportunity to utilize the services. About \$8.0 million is available yearly to Kansas under the program. FTA 49 U.S.C. 5310 provides federal monies to private nonprofit corporations and associations or public bodies approved by the state to purchase vehicles and related equipment to meet the special transportation needs of elderly persons and persons with disabilities. Urbanized areas and nonurban-areas under 50,000 population are eligible. About \$1.0 million is available yearly to Kansas under this program.

FTA 49 U.S.C. 5309 is a capital investment program with annual funding of about \$3 million depending on Congressional earmarks. Assistance is available for the purchase of vehicles and vehicle related equipment and/or facility construction and/or renovation. Currently there are four facilities that will be built across the state.

Funding for the state program is available from the Elderly & Disabled Coordinated Public Transportation Assistance Fund. Under the CTP, the state program provides \$6 million a year for needed transportation in areas of the state lacking service and to expand and enhance existing services.

Rail Service Improvement Fund

Many areas of the state no longer have service from Class I railroads. Short line railroads provide rail service to such areas, provide an alternative to trucks for freight (primarily grain) shippers, and keep rural areas of the state connected to the national rail network as well as national and international markets for Kansas grains and products. This alternative provides competition and helps keep shipping rates down. It also reduces the number of trucks that would otherwise be on Kansas roads and highways. This in turn avoids increased maintenance and rehabilitation costs for those roads.

The Rail Service Improvement Fund component of the CTP receives \$3 million per year for eight years (through State Fiscal Year 2009) and is administered by KDOT's freight and rail unit. The fund makes available to short line railroads and port authorities operating in Kansas low-interest, long-term (ten-year) loans and grants to be used primarily for track rehabilitation projects. Funds may also be used for financing and acquisition activities and the purchase of rolling stock.

Kansas Airport Improvement Program

When time is of the essence, no other means of travel can fulfill time-sensitive requirements the way that air transportation does. Airports serve an important role in the state transportation system. The foremost role is the economic activity generated by companies that rely on airports in the daily conduct of their business. According to the 2006 General Aviation Manufacturers' Association report, general aviation contributes \$7 billion to the Kansas economy (the highest per capita economic impact of any state).

Also important are medical services, both fly-in by

professionals and emergency evacuations. In addition, agricultural application, charter, a link to the national air transportation system private air travel, and many other services are available.

The goals of the Kansas Airport Improvement Program include:

- ♦ preserving and improving the state's airport infrastructure;
- ♦ minimizing surface travel time to air ambulance pick-up locations;
- ♦ increasing safety by improvements to taxiways, ramps, and lighting;
- ♦ enhancing community economic development appeal.

A key element of the program is a matching requirement of between 10 to 50 percent, which is determined by community population. The program's \$3 million per year in state funds, combined with local matching funds, results in \$4 to \$4.5 million in improvements per year. Since its inception, the average runway pavement condition in Kansas has improved from a "fair" rating in 1999 to a "very good" rating in 2009.

To date, the program has supported 275 projects at 98 public-use airports.

PROJECT LISTINGS

Section B

This section contains the separate project lists.

The projects scheduled for improvement during FY 2010-2012, projects completed in FY 2009, and projects under Construction as of October 21, 2009 are organized in alphabetical order by county. Each one includes a project description, length, construction cost or estimated construction cost, and work type.

K.S.A. Supp. 68-2315, as amended, requires information concerning construction work completed, construction work in progress, and planned projects for future years. A detailed explanation of the methods or criteria employed in the selection of projects is also required and can be found in this Appendix.

In addition to state highway construction project lists are aviation, rail, and public transit project listings.

NOTE: This section, as well as previous Annual Reports, is available on KDOT's Internet site at www.ksdot.org/publications.asp, in the Report and Studies listing.

The project lists are:

- *Projects scheduled for improvement during FY 2010-2012, pages 3 to 21.*
- *Projects completed in FY 2009, pages 22 to 44.*
- *Projects under construction as of October 31, 2009, pages 45 to 69.*
- *Aviation projects, pages 72 to 73.*
- *Rail projects, page 74.*
- *Public transit projects, pages 75 to 77.*

PROGRAM CATEGORIES

The following is a breakdown of the Program Categories that are shown in the Project Listing.

LC – Local Construction

HAZ - Safety Projects (HSIP, off-system)
HES - Safety Projects (HSIP, on-system)
K1R - KLINK Resurfacing
K3R - Geometric Improvements for KLINKS
LOC - Local Construction (Local Administered & Let)
RES - Local Construction (KDOT Administered & Let)
RRX - Railroad Crossing Protection (HSIP, on-system)
RXR - Railroad Crossing Protection (HSIP, off-system)
SRT - Safe Routes To Schools (Federal)
TEX - Transportation Enhancement Program

MM – Modernization--Safety & Shoulder Improvements

1RS - Resurfacing w/Improvements (Practical Design)
COR - Corridor Management
IRI - Interstate Roadway Geometric Improvements
KCC - KCC Railroad Crossing Projects
LTG - Highway Lighting
RIM - Non-Interstate Geometric Improvements
SAF - Safety Projects (State)

SE – Expansion/Enhancement--Adding Something New

EDP - Economic Development
IRC - Interstate Capacity Impr (old IRI split to Exp/Enh)
ITS - Intelligent Transportation Systems (ITS)

SE – Expansion/Enhancement--Adding Something New (Continued)

RIC - Non-Interstate Capacity Impr (old RIM split to Exp/Enh)
RSL - Local Partnership Railroad Grade Separations
RSP - New Railroad Grade Separations (State)
SEB - System Enh. - Bypasses
SEC - System Enh. - Corridors
SEI - System Enh. - Interchanges/Separations
SEW - System Enh. - Wichita Railroad Crossings

SM - Preservation--Taking Care of What We Have

1RR - Non-Interstate Resurfacing (PMS 1R)
BCR - Culvert Repair
BSP - Bridge Painting
BSR - Bridge Repair
CMN - Contract Maintenance (PMS)
EMR – Emergency Repair
IRP - Interstate Basic Impr (old RIM split to Preservation)
ISR – Interstate Resurfacing (PMS)
PBR - Bridge Replacement/Rehabilitation
PCR - Culvert (to Bridge) Rehabilitation
PDR - Bridge Redeck
PMR - Pavement Marking
RIP - Non-Interstate Basic Impr (old RIM split to Preserv)
RRS - Railroad Crossing Surfacing
SOS – Highway Signing

PROJECT LISTING

FY 2010 - 2012 COMPREHENSIVE TRANSPORTATION PROGRAM

The following projects are scheduled for improvement during FY 2010 - 2012. The projects are listed in route/county order. The project listing includes (SM) Preservation, (MM) Modernization, (SE) Expansion and (LC) Local Construction. Not all of the Substantial Maintenance and set-aside projects have been identified at this time. System Enhancement projects are also listed separately in Part B.

County	Route	Location Description	Length (Miles)	Type of Work	Est. FY Const. Cost (1,000)	Prog Cat & SubCat @	Fiscal Year

Totals:		\$4,501,798	\$3,067,980	\$1,433,818	

ARRA Rail Projects

These ARRA rail construction projects have been funded through federal ARRA funds. Bid lettings are scheduled to take place in December 2009 and January 2010. It is anticipated that construction work will begin in Spring 2010.

Project Number	Rail Line Segment	Grant Amount	Project Description
KA-1810-01	Nebraska Kansas Colorado Railroad	\$476,828	This project will address substandard defects in 42 bridges along the route.
KA-1811-01	Kansas and Oklahoma Railroad	\$195,278	This project will extend an existing 10-car siding at Farmers Coop Equity Exchange in Sawyer to a 25-car capacity.
KA-1812-01	Kyle Railroad	\$371,000	This project will construct a 2,000 foot siding into the Nesika Energy ethanol production facility at Scandia to enable them to ship ethanol by rail for the first time.
KA-1813-01	Kansas and Oklahoma Railroad	\$158,470	This project will extend an existing 4-car siding at Mid-States Farmers Coop in Alexander to an 11-car siding.
KA-1814-01	Kansas and Oklahoma Railroad	\$967,820	This project will add 7,200 feet of siding/passing track near Colwich to handle 110-car unit grain trains. It will improve rail traffic flow into and out of the Wichita market and help reduce car turn times.
KA-1839-01	City of Hutchinson	\$844,800	This project will construct rail storage tracks at the Siemens nacelle assembly facility being built in Hutchinson.

Total: \$3,014,196.00
