

APPENDIX

to the

KANSAS DEPARTMENT OF TRANSPORTATION'S

2011 Annual Report

This appendix contains additional transportation information including:

- Financial compliance
- Project Selection Criteria
- Project list detailing projects scheduled for improvement during FY 2011-2015, projects completed in FY 2010 and projects under construction as of October 31, 2010. Also list of aviation, rail and public transit projects.
- Transportation Revolving Fund
- Modal information

Section A

Financial Compliance

Each year the Department provides to the Governor and the Legislature summary financial information and a statement of assurance that the Department has prepared a comprehensive financial report of all funds for the preceding year. The financial report must include a report by independent public accountants attesting that the financial statements present fairly the financial position of the Department in conformity with generally accepted accounting principles (GAAP).

The Department has prepared a Comprehensive Annual Financial Report (CAFR) for Fiscal Year (FY) 2010. Included in the CAFR is the report of the independent public accountants,

Berberich Trahan & Co., P.A. and Allen Gibbs & Houlik, L.C. attesting that the financial statements present fairly the financial position of the Department in conformity with accounting principles generally accepted in the United States of America. Also included is a certificate of achievement awarded to the Department for excellence in financial reporting for the 2009 CAFR. The award marks the 22th consecutive year the Department has received the award for excellence in financial reporting.

The complete CAFR is available by contacting KDOT's Office of Transportation Information at 785-296-3585 (Voice)/(TTY). The CAFR is also available on KDOT's Web site at <http://www.ksdot.org/publications.asp>, under Reports and Studies.

FY 2010 FINANCIAL INFORMATION

The following schedule is a summary of revenues and expenditures for FY 2010 and the amount and percent of increases or decreases in relation to prior year amounts. All amounts are in thousands.

REVENUES	2010	Percent of Total	Increase (Decrease) from prior year	
			Amount	Percent
Motor Fuel Taxes	\$ 422,919	30 %	\$ 5,065	1 %
Vehicle Registrations and Permits	175,291	13	5,035	3
Intergovernmental	508,465	36	115,381	29
Sales and Use Taxes	259,899	19	(8,360)	(3)
Investment Earnings	8,998	1	(13,864)	(61)
Motor Carrier Property Taxes	0	0	(6,661)	0
Other	9,842	1	2,595	36
Transfers from Other State Funds	2,598	0	1,136	78
Total revenues	\$ 1,388,012	100 %	\$ 100,327	8 %

EXPENDITURES	2010	Percent of Total	Increase (Decrease) from prior year	
			Amount	Percent
Current Operating				
Maintenance	\$ 278,381	18 %	\$ (13,038)	(4) %
Construction	418,379	26	(40,402)	(9)
Communications system	14,218	1	5,432	62
Local Support	339,538	22	20,033	6
Rail, Air and Public Trans.	14,198	1	2,811	25
Management	69,539	4	1,549	2
Debt Service				
Principal	78,530	5	45,810	140
Interest and fees	72,860	5	(5,052)	(6)
Transfers to Other State Funds	286,447	18	166,621	139
Total expenditures	\$ 1,572,090	100 %	\$ 183,764	13 %
OTHER SOURCES (uses)				
Revenue Bond Proceeds	201,132	13 %	0	
Total other	201,132	100 %	0	
Excess (Deficiency) of Revenues and Other Sources Over Expenditures	\$ 17,054	100 %	\$ (83,437)	(119) %

Project Selection Criteria

In FY 2010 a new transportation program, Transportation Works for Kansas (T-WORKS), was passed by the Kansas Legislature. Under T-WORKS, projects are categorized into four core groups or programs: Preservation, Modernization, Expansion and Local Construction.

The four core programs group projects with similar work types together. The Preservation program protects the public's investment in its highway system by maintaining the "as built" condition of roads and bridges for as long as possible. Projects in this group are primarily of the road-maintenance and bridge-repair type, but they can also involve reconstruction work.

The main factors used when selecting these projects are the pavement condition for roads and the joint condition and/or load ratings for bridges. Keeping these structures in good condition is vital - without proper maintenance, the cost for major repairs and/or replacement may be several times greater than the cost of timely maintenance.

Within the Preservation program, there are also smaller set-aside categories with projects that address signing, pavement markings and railroad crossing surfaces. For the Preservation program, roads and bridges are reviewed annually and projects are selected annually for repair. Thus not all of the projects in this program have been selected at this time.

The Modernization program focuses on improvements to the existing system. Projects under this program are designed to enhance safety and/or improve roadways by adding shoulders, flattening hills, straightening curves and upgrading intersections on already existing roadways. The majority of these projects are anticipated to be selected in early 2011.

The Expansion program, the third group under T-WORKS, is intended for projects that expand the transportation system. Projects in this program concentrate on improving access by adding new lanes or interchanges, reducing commute times and improving air quality by relieving congestion and enhancing economic development in a region. The majority of these projects are anticipated to be selected in early 2011.

The fourth program, Local Construction, focuses on improvements to city or county roads. The work encompassed by this program is varied in nature ranging from safety oriented, to maintenance of existing roadway, to small scale expansion-type projects but regardless of the project focus the common denominator is that the work is always on a city or county road. While the majority of the projects for the next five years have been selected for this program, changes to project selection in response to changing needs or economics may be made by cities and counties.

T-WORKS directed KDOT to develop a more strategic approach to highway project selection that allows for more flexibility. For project selection in the Modernization and Expansion programs, KDOT developed a selection process that combines its historically strong engineering-based formulas with additional considerations. In addition to engineering factors, regional priorities are being considered in the Modernization program project selection; and in the Expansion program regional priorities and economic impacts are being considered along with engineering factors for project selection. Proposed projects in these programs are scored and ranked based on how well the proposed project addresses the relevant criteria of engineering needs, regional priorities and support for economic development. Engineering factors continue to be assessed using the engineering based formulas KDOT already has established.

Regional priorities are being determined through the local-consult meetings held throughout the state that concluded in late 2010. Potential economic impact is being assessed by the agency through the piloting of the computer modeling package-Transportation Economic Development Impact System (TREDIS). TREDIS estimates the increase in jobs, income and economic output for a region due to a transportation improvement.

The chart below outlines the selection criteria KDOT is using in T-WORKS for the four core programs to help evaluate projects. Also considered are cost, previous investment, local contribution, etc. The Modernization program criteria has been revised to include regional priorities along with engineering factors to assist in project selection and the Expansion program is using engineering factors, regional priorities and economic impacts to assist in project selection. Project selection criteria for the Preservation and Local Construction programs have not changed.

Project Listings

The proposed projects to be constructed from FY 2011 to FY 2015 can be found starting on page B-1.

Transportation Revolving Fund

The Transportation Revolving Fund is a statewide revolving loan fund that provides low cost loans to local units of government for financing road and bridge improvements.

The improvement may be on or off the State Highway System. Since the first loan in August 2004, the fund has provided 109 loans to 54 cities and counties. The fund has \$133.1 million in executed loans with interest rates ranging from 3.55 percent to 4.36 percent.

Pilot Project Selection Criteria

Program	Engineering Factors	Regional Priorities	Economic Impact	Other
Preservation	100%			
Modernization	80%	20%		
Expansion	50%	25%	25%	
Local Construction				100%

Modal Information

Public Transportation

One state and five federal public transit programs provide services to the citizens of Kansas who depend upon public transportation. These services are made available by more than 100 providers across the state. Without these programs, many citizens would have no way to make medical appointments, hold a job, shop, or be self-sufficient.

Federal Transit Administration (FTA) 49 U.S.C. 5311 provides federal monies to support nonurban area (under 50,000 population) transportation programs that serve elderly persons and persons with disabilities while also providing the general public with an equal opportunity to utilize the services. About \$9.3 million is available yearly to Kansas under the program.

FTA 49 U.S.C. 5310 provides federal monies to private nonprofit corporations and associations or public bodies approved by the state to purchase vehicles and related equipment to meet the special transportation needs of elderly persons and persons with disabilities. Urbanized areas and nonurban-areas under 50,000 population are eligible. About \$1.2 million is available yearly to Kansas under this program.

FTA 49 U.S.C. 5316 provides federal monies to local governmental authorities and agencies and nonprofit entities for capital and operating costs of equipment, facilities, and associated capital maintenance items related to providing access to jobs. About 500 thousand is available yearly to Kansas under the program.

FTA 49 U.S.C. 5317 provides federal monies to encourage services and facility improvements to address the transportation needs of persons with disabilities that go beyond those required by the Americans with Disabilities Act. Funding may be used for associated capital and operating costs. About 290 thousand is available yearly to Kansas under the program.

FTA 49 U.S.C. 5309 is a capital investment program with annual funding about \$3 million depending on Congressional earmarks. Assistance is available for the purchase of vehicles and vehicle related equipment and/or facility construction and/or renovation. Currently there are four facilities that will be built across the state.

Funding for the state program is available from the Elderly & Disabled Coordinated Public Transportation Assistance Fund. The State Highway Fund provides \$6 million a year for needed transportation in areas of the state lacking service and to expand and enhance existing services.

Rail Service Improvement Fund

Many areas of the state no longer have service from Class I railroads. Short line railroads provide rail service to such areas, provide an alternative to trucks for freight (primarily grain) shippers, and keep rural areas of the state connected to the national rail network as well as national and international markets for Kansas grains and products. This alternative provides competition and helps keep shipping rates down. It also reduces the number of trucks that would otherwise be on Kansas roads and highways. This in turn avoids increased maintenance and rehabilitation costs for those roads.

The Rail Service Improvement Fund component of the CTP is administered by KDOT's freight and rail unit. The fund makes available to short line railroads and port authorities operating in Kansas, and shippers and local units of government in coordination with the serving railroad, low-interest, long-term (ten-year) loans and grants to be used primarily for track rehabilitation, capacity improvement and economic development projects. Funds may also be used for financing and acquisition activities and the purchase of rolling stock.

Kansas Airport Improvement Program

When time is of the essence, no other means of travel can fulfill time-sensitive requirements the way that air transportation does. Airports serve an important role in the state transportation system. The foremost role is the economic activity generated by companies that rely on airports in the daily conduct of their business. According to the 2010 Kansas Aviation Economic Impact Study, aviation contributes over \$20 billion to the Kansas economy each year (the highest per capita economic impact of any state).

Also important are medical services, both fly-in by professionals as well as emergency evacuations. In addition, agricultural application, charter, a link to the national air transportation system, private air travel, and many other services are available.

The goals of the Kansas Airport Improvement Program (KAIP) include:

- ♦ maintain the system's runway condition rating of "very good";
- ♦ minimize surface travel time to air ambulance pick-up locations;
- ♦ improve safety, and;
- ♦ enhance airport and community economic development appeal.

The program is open to public-use airports in Kansas as defined in K.S.A. 75-5061. Projects under this program are solicited annually to preserve or modernize facilities, to design or plan continued development and to improve or add equipment. A key element of the program is a matching requirement of between 5 and 50 percent, which is determined by community population, category of project and type of ownership. The program's \$3 million per year in state funds, combined with local matching funds, results in \$4 to \$4.5 million in improvements per year.

To date, the program has supported 312 projects at 104 public-use airports.

PROJECT LISTINGS

This section contains the separate project lists.

The projects scheduled for improvement during FY 2011-2015, projects completed in FY 2010, and projects under Construction as of October 31, 2010 are organized in alphabetical order by county. Each one includes a project description, length, construction cost or estimated construction cost, and work type.

K.S.A. Supp. 68-2315, as amended, requires information concerning construction work completed, construction work in progress, and planned projects for future years. A detailed explanation of the methods or criteria employed in the selection of projects is also required and can be found in this Appendix.

In addition to state highway construction project lists are aviation, rail, and public transit project listings.

NOTE: This section, as well as previous Annual Reports, is available on KDOT's Internet site at www.ksdot.org/publications.asp, in the Report and Studies listing.

The project lists are:

- *Projects scheduled for improvement during FY 2011-2015, pages 3 to 24.*
- *Projects completed in FY 2010, pages 25 to 35.*
- *Projects under construction as of FY 2011, pages 37 to 66.*
- *Aviation projects, pages 68 to 69.*
- *Rail projects, page 70.*
- *Public transit projects, pages 71 to 73.*

PROGRAM CATEGORIES

The following is a breakdown of the Program Categories that are shown in the Project Listing.

LC – Local Construction

HAZ - Safety Projects (HSIP, off-system)
HES - Safety Projects (HSIP, on-system)
K1R - KLINK Resurfacing
K3R - Geometric Improvements for KLINKS
LOC - Local Construction (Local Administered & Let)
RES - Local Construction (KDOT Administered & Let)
RRX - Railroad Crossing Protection (HSIP, on-system)
RXR - Railroad Crossing Protection (HSIP, off-system)
SRT - Safe Routes To Schools (Federal)
TEX - Transportation Enhancement Program

MM – Modernization--Safety & Shoulder Improvements

1RS - Resurfacing w/Improvements (Practical Design)
COR - Corridor Management
IRI - Interstate Roadway Geometric Improvements
KCC - KCC Railroad Crossing Projects
LTG - Highway Lighting
RIM - Non-Interstate Geometric Improvements
SAF - Safety Projects (State)

SE – Expansion/Enhancement--Adding Something New

EDP - Economic Development
IRC - Interstate Capacity Impr (old IRI split to Exp/Enh)
ITS - Intelligent Transportation Systems (ITS)

SE – Expansion/Enhancement--Adding Something New (Continued)

RIC - Non-Interstate Capacity Impr (old RIM split to Exp/Enh)
RSL - Local Partnership Railroad Grade Separations
RSP - New Railroad Grade Separations (State)
SEB - System Enh. - Bypasses
SEC - System Enh. - Corridors
SEI - System Enh. - Interchanges/Separations
SEW - System Enh. - Wichita Railroad Crossings

SM - Preservation--Taking Care of What We Have

1RR - Non-Interstate Resurfacing (PMS 1R)
BCR - Culvert Repair
BSP - Bridge Painting
BSR - Bridge Repair
CMN - Contract Maintenance (PMS)
EMR – Emergency Repair
IRP - Interstate Basic Impr (old RIM split to Preservation)
ISR – Interstate Resurfacing (PMS)
PBR - Bridge Replacement/Rehabilitation
PCR - Culvert (to Bridge) Rehabilitation
PDR - Bridge Redeck
PMR - Pavement Marking
RIP - Non-Interstate Basic Impr (old RIM split to Preserv)
RRS - Railroad Crossing Surfacing
SOS – Highway Signing

PROJECT LISTING

FY 2011 - 2015 COMPREHENSIVE TRANSPORTATION PROGRAM

The following projects are scheduled for improvement during FY 2011 - 2015. The projects are listed in route/county order. The project listing includes (SM) Preservation, (MM) Modernization, (SE) Expansion and (LC) Local Construction. Not all of the Preservation Program has been identified at this time.

County	Route	Location Description	Length (Miles)	Type of Work	Est. FY Const. Cost (1,000)	Prog Cat & SubCat @	Fiscal Year
Allen		PED/BIKE PATH IN THE CITY OF IOLA	1.1	Prsrv And Railway For Trails	456	LC-TEX	2011

Kansas Airport Improvement Program
Project Summary by County
FY 2011

County	Project	Total Cost	State Funds	Local Funds	FY
Anderson	Repl & Relocate Fueling Syst at Garnett	\$24,000	\$18,000	\$6,000	2011
Atchison	Self-Service Fueling Syst at Atchinson	\$20,000	\$10,000	\$10,000	2011
Barton	Slurry Seal Rwy 17-35 at Great Bend	\$67,400	\$33,700	\$33,700	2011
	Repl Lighting Controller at Great Bend	\$2,344	\$1,172	\$1,172	2011
Brown	AWOS III at Sabetha	\$100,000	\$90,000	\$10,000	2011
	Self-Service Fueling Syst at Sabetha	\$22,350	\$10,000	\$12,350	2011
	Airport Development Plan at Sabetha	\$80,000	\$76,000	\$4,000	2011
Butler	Install Beacon at Benton	\$10,521	\$9,000	\$1,521	2011
	Gutters for T-Hgrs at Augusta	\$9,500	\$7,125	\$2,375	2011
	Remodel for Pilots Lounge at Augusta	\$5,000	\$3,750	\$1,250	2011
	Repl Airfield Mower at Augusta	\$9,200	\$6,900	\$2,300	2011
Cheyenne	Crack Rpr, Twy & Ramp at St. Francis	\$11,700	\$10,530	\$1,170	2011
Crawford	Repair Taxiways at Pittsburg	\$176,700	\$88,350	\$88,350	2011
	Ground Communications Outlet at Pittsburg	\$14,000	\$7,000	\$7,000	2011
Decator	Repl Acft Fueling Syst at Oberlin	\$27,000	\$24,300	\$2,700	2011
Dickinson	Upgrade AWOS for Internet at Abilene	\$4,000	\$3,000	\$1,000	2011
Gray	Expand Ramp at Montezuma	\$167,720	\$150,948	\$16,772	2011
Greenwood	Upgrade AWOS for Internet at Eureka	\$4,000	\$3,600	\$400	2011
Hamilton	Repl Rwy End Lgts; Inst Obstruction Lgts at Syracuse	\$40,000	\$36,000	\$4,000	2011
Harper	Repl Airfield Lighting at Harper	\$150,000	\$135,000	\$15,000	2011
	Repl Fueling Syst at Anthony	\$140,000	\$126,000	\$14,000	2011
	Reconst Twy at Anthony	\$165,000	\$148,500	\$16,500	2011
	Automated Weather System at Harper	\$100,000	\$90,000	\$10,000	2011
Haskell	Overlay Rwy at Sublette	\$555,500	\$499,950	\$55,550	2011
Jackson	Arpt Development Plan at Mayetta (PBPN)	\$15,000	\$10,000	\$5,000	2011
Kearny	Seal Rwy & Ramp at Lakin	\$206,000	\$185,400	\$20,600	2011
Kiowa	Airport Development Plan at Greensburg	\$80,000	\$76,000	\$4,000	2011
Lane	Airport Development Plan at Dighton	\$30,000	\$28,500	\$1,500	2011

County	Project	Total Cost	State Funds	Local Funds	FY
Leavenworth	Pave GA Parking Ramp at Leavenworth	\$240,000	\$120,000	\$120,000	2011
Lincoln	Const Ramp & Helipad at Lincoln	\$449,500	\$404,550	\$44,950	2011
McPherson	Self-Service Fueling Syst at McPherson	\$15,400	\$7,700	\$7,700	2011
Mitchell	Upgrade AWOS for Internet at Beloit	\$4,000	\$3,000	\$1,000	2011
Montgomery	Upgrade AWOS for Internet at Coffeyville	\$4,000	\$2,000	\$2,000	2011
	Upgrade AWOS for Internet at Independence	\$4,000	\$3,000	\$1,000	2011
Saline	Rehab Twys A & F at Salina	\$950,000	\$475,000	\$475,000	2011
Sedgwick	Airport Development Plan at Wichita Riverside	\$50,000	\$47,500	\$2,500	2011
Shawnee	Airfield Signage at Topeka Billard	\$224,954	\$112,477	\$112,477	2011
	Rpr Airfield Pavements at Topeka Forbes	\$322,078	\$161,039	\$161,039	2011
Sumner	Ground Communications Outlet at Wellington	\$15,000	\$11,250	\$3,750	2011
Trego	O-lay & Widen Portion of Rwy at WaKeeney	\$555,556	\$500,000	\$55,556	2011
	Aeronautical Survey at WaKeeney	\$80,000	\$72,000	\$8,000	2011
Washington	Automated Weather System at Washington	\$100,000	\$90,000	\$10,000	2011
Wichita	Seal Rwys 17-35 & 8-26 at Leoti	\$35,000	\$31,500	\$3,500	2011
Totals:		\$5,286,423	\$3,929,741	\$1,356,682	

ARRA Rail Projects

Rail Service Improvement Fund

Many areas of the state no longer have service from Class I railroads. Short line railroads provide rail service to such areas, provide an alternative to trucks for freight (primarily grain) shippers, and keep rural areas of the state connected to the national rail network as well as national and international markets for Kansas grains and products. This alternative provides competition and helps keep shipping rates down. It also reduces the number of trucks that would otherwise be on Kansas roads and highways. This in turn avoids increased maintenance and rehabilitation costs for those roads.

The Rail Service Improvement Fund component of the CTP is administered by KDOT's freight and rail unit. The fund makes available to short line railroads and port authorities operating in Kansas, and shippers and local units of government in coordination with the serving railroad, low-interest, long-term (ten-year) loans and grants to be used primarily for track rehabilitation, capacity improvement and economic development projects. Funds may also be used for financing and acquisition activities and the purchase of rolling stock.

Project Number	Rail Line Segment	Grant Amount	Loan Amount	Project Description
106 RF-0001-01	Cimarron Valley Railroad	\$3,000,000	\$2,000,000	In addition to \$5,000,000 from KDOT, funding includes \$5,000,000 from the CVR, and \$5,000,000 from Port Authority of the Southwest for significant rehabilitation including 100,000 ties replaced, 560 carloads of ballast, 150 miles of tamping and 10 miles of rail replacement.
46 RF 0020-01	Bonanza Energy Center	\$500,000	\$1,100,000	Extend ethanol siding and provide access to industrial spur in Garden City. 8,800 feet of new rail, ties, ballast and switches.
46RF 0019-01	BNSF Railway	\$35,000,000		Provide partial funding for the new BNSF intermodal facility near Edgerton, KS. Includes structures, utilities, grading and drainage work.
106 RF-0016-01	South Kansas and Oklahoma Railroad	\$405,000		Flood grant for rehabilitation of 13.6 miles between Sherwin and Cherokee, KS. Tie replacement, ballast and tamping.
106 KA-1910-01	Service Development Plan	HSIPR – \$250,000 KDOT – \$125,000 ODOT – \$125,000		Grant that will analyze two potential passenger rail expansion routes: overnight service between Newton, KS and Oklahoma City, OK, connecting with existing Southwest Chief and Heartland Flyer services; and new daytime service between Kansas City, MO and Fort Worth, TX. The Plan will consist of all major SDP components identified by the Federal Railroad Administration (FRA). Expected completion in September 2011.

State/Federal Public Transit Programs - ARRA Contracts

FY 2011 Coordinated Transit District (CTD) Operating

Coordinated Transit District (CTD) Operating	Counties Served	Total Operating Costs	Local Share	State Share	Federal Share	Total Vehicle Costs	Local Share	State Share	Federal Share
