

# APPENDIX

to the

## KANSAS DEPARTMENT OF TRANSPORTATION'S

### 2013 Annual Report

---

#### Section A

*This appendix contains additional transportation information including:*

- Financial Compliance
- Project Selection Criteria
- Project list detailing projects scheduled for improvement during FY 2013-2020, projects completed in FY 2012 and projects under construction as of November 2012. Also list of aviation, rail and public transit projects.
- Transportation Revolving Fund
- Modal Information
- Federal Fund Exchange Program

#### **Financial Compliance**

Each year the Department provides to the Governor and the Legislature summary financial information and a statement of assurance that the Department has prepared a comprehensive financial report of all funds for the preceding year. The financial report must include a report by independent public accountants attesting that the financial statements present fairly the financial position of the Department in conformity with generally accepted accounting principles (GAAP).

The Department has prepared a Comprehensive Annual Financial Report (CAFR) for Fiscal Year (FY) 2012. Included in the CAFR will be a report of the independent public accountants,

Rubin Brown, LLP, once all outstanding State of Kansas audits are complete. Also included is a certificate of achievement awarded to the Department for excellence in financial reporting for the 2012 CAFR. The award marks the 24th consecutive year the Department has received the award for excellence in financial reporting.

The complete CAFR will be available by contacting KDOT's Bureau of Transportation Information at 785-296-3585 (Voice)/ (TTY). The CAFR will also be available on KDOT's Website at <http://www.ksdot.org/burFiscal/default.asp>, under KDOT Financial Disclosures.

# FY 2012 FINANCIAL INFORMATION

The following schedule is a summary of revenues and expenditures for all funds for FY 2012. All amounts are in thousands.

	<u>2012</u>	<u>Percent of Total</u>
<u>REVENUES</u>		
Motor Fuel Taxes	\$ 431,280	31 %
Vehicle Registrations and Permits	177,649	12
Intergovernmental	492,615	34
Sales and Use Taxes	312,934	22
Investment Earnings	4,656	0
Motor Carrier Property Taxes	0	0
Other	13,415	1
Transfers from Other State Funds	3,665	0
Total revenues	<u>1,436,214</u>	<u>100 %</u>

	<u>2012</u>	<u>Percent of Total</u>
<u>EXPENDITURES</u>		
Current Operating		
Maintenance	130,123	7 %
Preservation	365,988	22
Modernization	115,293	7
Expansion and enhancement	258,498	15
Communications system	11,307	1
Local Support	258,038	15
Rail, Air and Public Trans. Management	43,050	3
	64,021	4
Debt Service		
Principal	65,145	4
Interest and fees	74,008	4
Transfers to Other		
State Funds	313,402	18
Total expenditures	<u>1,698,873</u>	<u>100 %</u>
<u>OTHER SOURCES (uses)</u>		
Revenue Bond Proceeds	0	0
Total other	<u>0</u>	<u>0 %</u>
Excess (Deficiency) of Revenues and Other Sources Over Expenditures	<u>(262,659)</u>	<u>100 %</u>

## **Project Selection Criteria**

In May 2010, the Kansas Legislature passed the transportation program, Transportation Works for Kansas (T-WORKS) which covers a 10- year period that began in FY 2011. In T-WORKS, the Kansas Department of Transportation (KDOT) was directed to develop a strategic approach to highway project selection that allowed for greater stakeholder input and flexibility. KDOT is piloting this new process when selecting the construction projects for this program.

Under T-WORKS, construction projects are categorized into four core programs: Preservation, Modernization, Expansion and Local Construction. The four core programs group construction projects with similar work types and scopes together. Projects within each of these major programs are further grouped together based upon similar funding sources or project-types into more specific groups or subcategories.

For the Preservation program, engineering factors continue to be an effective method for project selection. However, in the Modernization and Expansion programs, engineering factors were augmented with other factors. In the Modernization program, project selection combined historically strong engineering-based formulas with regional priorities and in the Expansion program, project selections combined engineering factors with regional priorities and economic impacts. In each of the programs, proposed projects are scored and ranked based upon how well the proposed projects address the relevant criteria. Then, selections are made based upon the combined information. Project selection

for the fourth core program, Local Construction, is unchanged and is determined at the local level by local entities throughout the state with the coordination of KDOT’s Bureau of Local Projects.

Engineering factors for the preservation, modernization and expansion programs were evaluated using the engineering based formulas KDOT already has established. Regional priorities are determined through local-consult meetings held periodically throughout the state. To date, KDOT has conducted local consult meetings twice- once in late 2010 and again in late 2012. Through these meetings and through the continued interaction between the area and district engineers with local entities, KDOT maintains a dialogue with stakeholders throughout the state concerning regional focus and priorities. Potential economic impact was assessed by the agency through the piloting of the computer modeling package-Transportation Economic Development Impact System (TREDIS). TREDIS estimates the increase in jobs, income and economic output for a region due to a transportation improvement.

The chart below outlines the selection criteria applied to T-WORKS projects in each of the four core programs and the weight given to each criterion.

### **T-WORKS Project Selection Criteria**

<b>Program</b>	<b>Engineering Factors</b>	<b>Regional Priorities</b>	<b>Economic Impact</b>	<b>Other</b>
Preservation	100%			
Modernization	80%	20%		
Expansion	50%	25%	25%	
Local Construction				100%

The Preservation program protects the public's investment in its highway system by maintaining the "as built" condition of roads and bridges. Projects in this group range from roadway surfacing rehabilitation and bridge repairs to pavement and bridge replacement.

The engineering factors used when selecting preservation projects relate to the pavement and bridge conditions, like remaining pavement life, rutting, and cracking for roads and joint or bridge deck condition and/or load ratings for bridges. Roads and bridges are evaluated on an annual basis and projects are selected based upon this annual review. Additionally, within the Preservation program, are smaller scale set-aside projects that address such issues as signing, pavement markings and railroad crossing surfaces. These set-aside projects are so named because the funds to perform the work is "set aside" or reserved specifically for the type of work designated by the set-aside category. The set-aside group of projects is selected on an annual basis like the other preservation projects. Since the Preservation program of projects is selected a year at a time, the majority of the preservation projects listed in this report are for work to be performed in fiscal year 2013 or early 2014. Selecting and programming projects on an annual basis allows KDOT to maintain flexibility and responsiveness in their project selection during the remainder of the T-WORKS program.

The second core program, Modernization, focuses on improvements to the existing system. Projects under this program are designed to enhance safety and/or improve roadways by adding shoulders, flattening hills, straightening curves and upgrading intersections on already existing roadways. In May 2011, the final selection of the major modernization projects to be completed under T-WORKS was made. These projects were then jointly announced in late May and June 2011 by the Governor and Secretary of Transportation. With the majority of the modernization program already selected, the projects to be undertaken during

T-WORKS appear in this report.

In contrast to the majority of the modernization program, the practical improvement group of modernization projects is selected on a need basis and is developed out of the preservation annual review of the roads and bridges. The projects within the practical improvement group are hybrids with elements of both the preservation and modernization program. In general, practical improvement projects have greater complexity than preservation type projects making them a better fit within the Modernization program. Project scope pertaining to shoulder improvement is an example of the type of work that is a good candidate for the practical improvement approach. By employing the practical improvement approach, a project may be completed in the most cost-efficient manner feasible. The implementation of this approach enables KDOT to stretch construction dollars and provide the greatest benefit possible for the dollars spent. While most of the funds for Modernization have been programmed and projects have been selected, a small portion of funding has been reserved to fund the practical improvement projects as they are identified as the T-WORKS progresses. In this way, flexibility in scheduling is balanced with the need to select major modernization projects because of their complexity early in a program to ensure that sufficient time is provided for completion.

The Expansion program, the third principal group under T-WORKS, is intended for projects that expand and enhance the transportation system. Projects in this program concentrate on improving access by adding new lanes or interchanges, reducing commute time and improving air quality by relieving congestion and enhancing economic development in a region by selecting projects with high economic impact. The expansion program with the exception of the economic development portion was selected in early FY 2011 and announced by the Governor and Secretary of Transportation in May and June 2011. The expansion projects selected to be completed under T-WORKS appear in this report- including

all economic development projects selected to date. Because of the complex nature of the Expansion program of projects, early selection is crucial to allow sufficient planning, design and construction time.

However, in order to maintain some flexibility in scheduling, the economic development projects have been partially selected. The remaining economic development projects will be selected on an ongoing basis throughout T-WORKS as viable projects surface. In this way, the agency maintains some flexibility to respond to new opportunities as they arise throughout the remainder of the T-WORKS program.

The fourth program, Local Construction, focuses on improvements to city or county roads. The work encompassed by this program is varied in nature ranging from safety oriented, to maintenance of existing roadway, to small-scale expansion type projects but regardless of the project focus, the common denominator is that the work is always on a city or county road. Many of the subcategories within the Local Construction program like the City Connecting Link Resurfacing Program (KLINK) and Transportation Enhancement (TE) to name only two are partnership programs in which KDOT or the federal government partner with local entities to share the costs and enable local dollars to stretch further. To generate candidate projects, many partnership programs employ a solicitation process in which prospective projects are solicited through an application. The pool of project applications is prioritized based on program specific criteria. Then projects are selected in order of priority and programmed until the available funds are expended. The schedule for project solicitation varies but most of the partnership programs solicit projects on an annual basis. In other subcategories within the local construction program, the locals are solely responsible for project selection and development. To assist local entities in their selection process KDOT makes available bridge inspection data, traffic accident data and traffic count data

among other resources. For local construction, the Bureau of Local Projects is the primary point of contact within KDOT. For detailed information concerning the local construction program and specifically the partnership programs visit the T-WORKS website, the link is provided below.

For an in depth look at the projects selected and undertaken during T-WORKS- including those projects in the core programs, KDOT has established a website that provides information about the entire T-WORKS program. This website is a continued effort on KDOT's part to gain greater stakeholder input. To accomplish this goal, the website is not only a source of more information but is interactive with sites throughout that provide opportunities to submit questions, opportunities for participation in discussions and opportunities for comment submission. The T-WORKS website is located at the following link <http://kdotapp.ksdot.org/TWorks/> .

## ***Project Listings***

The project listings can be found starting on page B-1.

## ***Transportation Revolving Fund***

The Transportation Revolving Fund is a statewide revolving loan fund that provides low-cost loans to local units of government for financing road and bridge improvements.

The improvement may be on or off the State Highway System. Since the first loan in August of 2004, the fund has provided 112 loans to 56 cities and counties. The fund has \$135.5 million in executed loans with interest rates ranging from 3.25 percent to 4.36 percent.

## **Modal Information**

### **Public Transportation**

Public transportation in Kansas is supported by one state program and five Federal Transit Administration (FTA) funding programs. These funding programs, which are augmented by local match, provide the funding for the 84 general public transit service providers and the 59 transit providers that service elderly persons and persons with disabilities throughout the state. Without these programs, many citizens would have no access to public transportation.

The FTA 49 U.S.C. 5311 program provides funding to support rural and small urban (under 50,000 population) transportation projects that serve the general public. Funds are available for both capital and operating assistance. For Federal Fiscal Year 2012, the 5311 program for the state of Kansas was funded in the amount of \$9,435,575.00.

FTA 49 U.S.C. 5310 provides federal funds to private nonprofit entities or public agencies approved by the state to purchase vehicles and related equipment that meet the special needs transportation specifically for elderly persons and persons with disabilities. Urbanized areas and nonurban areas with populations under 50,000 are eligible for 5310 funds. For Federal Fiscal Year 2012, the 5310 program for the state of Kansas was funded in the amount of \$1,269,778.00.

FTA 49 U.S.C. 5316 provides federal funds to local governmental agencies and nonprofit entities for capital and operating expenses of equipment, facilities, and associated capital maintenance items related to providing access to jobs. For Federal Fiscal Year 2012, the 5316 program for the state of Kansas was funded in the amount of \$744,770.00.

FTA 49 U.S.C. 5317 provides federal funds to encourage services and facility improvements to address the transportation needs of persons with disabilities that go beyond those required by the Americans with Disabilities Act. Funding may be used for

associated capital and operating cost. For Federal Fiscal Year 2012, the 5317 program for the state of Kansas was funded in the amount of \$436,244.00.

FTA 49 U.S.C. 5309 is a capital investment program with annual funding depending on Congressional earmarks. Assistance is available for the purchase of vehicles and vehicle related equipment and/or facility construction and/or renovation.

Funding for the state program is available from the Coordinated Public Transportation Assistance Fund. The State Highway Fund provides \$6 million annually for needed transportation services in areas of the state lacking public transit services and to expand, improve and enhance existing services.

### **Rail Service Improvement Fund**

Many areas of the state no longer have service from Class I railroads. Short line railroads provide rail service to such areas, provide an alternative to trucks for freight (primarily grain) shippers, and keep rural areas of the state connected to the national rail network as well as national and international markets for Kansas grains and products. This alternative provides competition and helps keep shipping rates down. It also reduces the number of trucks that would otherwise be on Kansas roads and highways. This in turn avoids increased maintenance and rehabilitation costs for those roads.

The Rail Service Improvement Fund is administered by KDOT's freight and rail unit. The fund makes loans available to short line railroads, port authorities operating in Kansas and shippers and local units of government. The low-interest, long-term (10-year) loans and grants are used primarily for track rehabilitation, capacity improvement and economic development projects. Funds may also be used for financing and acquisition activities and the purchase of rolling stock. Beginning July 1, 2013, the fund will receive \$5 million annually.

## **Kansas Airport Improvement Program**

When time is of the essence, no other means of travel can fulfill time-sensitive requirements the way that air transportation does. Airports serve an important role in the state transportation system. The foremost role is the economic activity generated by companies that rely on airports in their daily business. According to the 2010 Kansas Aviation Economic Impact Study, aviation contributes over \$20 billion to the Kansas economy each year (the highest per capita economic impact of any state).

Also important are medical services, both fly-in by professionals as well as emergency evacuations. In addition, agricultural applications, charters, a link to the national air transportation system, private air travel, and many other services are available.

The goals of the Kansas Airport Improvement Program (KAIP) include:

- ◆maintain the system’s runway condition rating of “very good;”
- ◆minimize surface travel time to air ambulance pick-up locations;
- ◆improve safety, and;
- ◆enhance airport and community economic development appeal.

The program is open to public-use airports in Kansas as defined in K.S.A. 75-5061. Projects under this program are solicited annually to preserve or modernize facilities, to design or plan continued development and to improve or add equipment. A key element of the program is a matching requirement of between 5 and 50 percent, which is determined by community population, category of project and type of ownership. The program’s \$3 million per year in state funds, combined with local matching funds, results in \$4 to \$4.5 million in improvements per year.

To date, the program has supported 380 projects at 110 public-use airports.

## **Federal Fund Exchange Program**

The federal fund exchange program is a voluntary program that allows a local public agency (LPA) to trade all or a portion of its federal funding allocation in a specific federal fiscal year with KDOT in exchange for state transportation dollars or with another LPA in exchange for their local funds.

Under this program the LPA may develop projects following local procedures, criteria, and standards. All work performed shall be consistent with the Kansas Statutes, applicable regulations, and normal engineering practices for the work being done. Any work performed on the state highway or city connecting link will require coordination with the local KDOT Area Office.

Only LPAs that are eligible to receive a federal funding allocation may participate in the federal fund exchange program. Eligible LPAs include all counties in the state and cities with populations greater than 5,000 that are not located in a Transportation Management Area (TMA). Currently the only TMAs in Kansas are the Mid America Regional Council (MARC – Kansas City Region) and the Wichita Area Metropolitan Planning Organization (WAMPO).

Participation in the program is optional. An eligible LPA may choose to exchange its federal funds or it may use the funds to develop a federal aid project following the established procedures.

In general, KDOT will determine the amount of state funds available for exchange annually at the time the federal funding is confirmed for a federal fiscal year (FFY). KDOT may conduct more frequent reviews of available funding when necessary as a result of funding or budgetary considerations. Around the beginning of each new FFY, KDOT’s Bureau of Local Projects will notify the LPAs in writing the amount they are eligible to receive for that FFY.

For more details on this program, see KDOT’s website at [www.ksdot.org/burlocalproj/](http://www.ksdot.org/burlocalproj/).

# PROJECT LISTINGS

## Section B

### **This section contains the separate project lists.**

The projects scheduled for improvement during FY 2013-2020, projects completed in FY 2012, and projects under construction as of November 2012 are organized in alphabetical order by county. Each one includes a project description, length, construction cost or estimated construction cost, and work type.

K.S.A. Supp. 68-2315, as amended, requires information concerning construction work completed, construction work in progress, and planned projects for future years. A detailed explanation of the methods or criteria employed in the selection of projects is also required and can be found in this Appendix.

In addition to state highway construction project lists are aviation, rail, and public transit project listings.

**NOTE:** This section, as well as previous Annual Reports, is available on KDOT's Internet site at [www.ksdot.org/publications.asp](http://www.ksdot.org/publications.asp), in the Report and Studies listing.

---

*The project lists are:*

- *Projects scheduled for improvement during FY 2013-2020, pages 3 to 21.*
  - *Projects completed in FY 2012, pages 22 to 45.*
  - *Projects under construction as of November 2012, pages 46 to 66.*
  - *Aviation projects, pages 68 to 69.*
  - *Rail projects, page 70.*
  - *Public transit projects, pages 71 to 73.*
-

# *PROGRAM CATEGORIES*

**The following is a breakdown of the Program Categories that are shown in the Project Listing.**

## **LC - Local Construction**

HAZ - Safety Projects (HSIP, off system)  
HES - Safety Projects (HSIP, on system)  
K1R - KLINK Resurfacing  
K3R - Geometric Improvements for KLINKS  
LOC - Local Construction (Local Administered & Let)  
RES - Local Construction (KDOT Administered & Let)  
RRX - Railroad Crossing Protection (HSIP, on system)  
RXR - Railroad Crossing Protection (HSIP, off system)  
SRT - Safe Routes To Schools (Federal)  
TEX - Transportation Enhancement Program

## **MM - Modernization - Safety & Shoulder Improvements**

1RS - Resurfacing w/Improvements (Practical Design)  
COR - Corridor Management  
GFU - Guard Fence Upgrades (No Longer Used)  
IRI - Interstate Roadway Geometric Improvements  
KCC - KCC Railroad Crossing Projects  
LTG - Highway Lighting  
MPR - Miscellaneous (No Longer Used)  
OVC - Oil Overcharge (No Longer Used)  
RIM - Non Interstate Geometric Improvements  
SAF - Safety Projects (State)  
SBW - Scenic Byway

## **SE - Expansion/Enhancement - Adding Something New**

EDP - Economic Development  
IRC - Interstate Capacity Impr (old IRI split to Exp/Enh)  
ITS - Intelligent Transportation Systems (ITS)

## **SE - Expansion/Enhancement - Adding Something New**

RIC - Non Interstate Capacity Impr (old RIM split to Exp/Enh)  
RSL - Local Partnership Railroad Grade Separations  
RSP - New Railroad Grade Separations (State)  
SEB - System Enh. Bypasses  
SEC - System Enh. Corridors  
SEI - System Enh. Interchanges/Separations  
SEW - System Enh. Wichita Railroad Crossings

## **SM - Preservation - Taking Care of What We Have**

1RR - Non Interstate Resurfacing (PMS 1R)  
BCR - Culvert Repair  
BSP - Bridge Painting  
BSR - Bridge Repair  
CMN - Contract Maintenance (PMS)  
EMR - Emergency Repair  
IRP - Interstate Basic Impr (old RIM split to Preservation)  
ISR - Interstate Resurfacing (PMS)  
NHP - Miscellaneous for Preservation  
PBR - Bridge Replacement/Rehabilitation  
PCR - Culvert (to Bridge) Rehabilitation  
PDR - Bridge Redeck  
PMR - Pavement Marking  
RIP - Non Interstate Basic Impr (old RIM split to Preserv)  
RRS - Railroad Crossing Surfacing  
SLR - Signing & Lighting Repair and Replacement  
SOS - Highway Signing

## PROJECT LISTING

### FY 2013 - 2020 COMPREHENSIVE TRANSPORTATION PROGRAM

The following projects are scheduled for improvement during FY 2013 - 2020. The projects are listed in route/county order. The project listing includes (SM) Preservation, (MM) Modernization, (SE) Expansion and (LC) Local Construction. Not all of the Preservation Program has been identified at this time.

County	Route	Location Description	Length (Miles)	Type of Work	Est. FY Const. Cost (1,000)	Prog Cat & SubCat @	Fiscal Year
Allen		BRIDGE REPLACEMENT IN ALLEN COUNTY	0.2	Bridge Replacement	1,155	LC-RES	2014
Allen		UPRR & NORTH DAKOTA ROAD NORTH OF MORAN	0.0	Flashing Light Signal	280	LC-RXR	2014
Allen	K224	K-224 IN ALLEN COUNTY (FY 2013 1R PROJECT)	1.0	1.5 Overlay	135	SM-IRR	2013
Allen	U054	MILL AND OVERLAY ON US-54 IN ALLEN COUNTY	4.4	Milling And Overlay	6,513	SM-RIP	2013
Allen	U059	REPLACE BRIDGE ON US-59 IN ALLEN COUNTY	0.0	Bridge Replacement	1,600	SM-PBR	2014
Allen	U169	DEEP MILL AND OVERLAY ON US-169 IN ALLEN COUNTY	2.0	Milling And Overlay	2,295	SM-RIP	2014
Allen	U169	US-169 IN ALLEN COUNTY (FY 2013 1R PROJECT)	14.4	Pavement Patching	2,304	SM-IRR	2013
Anderson		BRIDGE REPLACEMENT IN ANDERSON COUNTY	0.1	Grade, Bridge & Surfacing	252	LC-RES	2014
Anderson		UPRR & 900 ROAD 1.5 MILES NORTHEAST OF SELMA	0.0	Flashing Light Signal	250	LC-RXR	2013
Anderson		UPRR & MARYLAND ROAD SOUTHWEST OF GARNETT	0.0	Flashing Light Signal	275	LC-RXR	2014
Anderson	K031	REPLACE BRIDGE ON K-31 IN ANDERSON COUNTY	0.0	Bridge Replacement	744	SM-PBR	2014
Anderson	K031	REPLACE BRIDGE ON K-31 IN ANDERSON COUNTY	0.0	Funds Only	100	SM-PBR	2014
Anderson	U059	CONSTRUCT TURN LANES AT US-59	0.5	Grade & Surfacing	500	MM-COR	2013
Anderson	U059	REPLACE BRIDGE ON US-59 IN ANDERSON COUNTY	0.0	Bridge Replacement	0	SM-PBR	2015
Anderson	U169	DEEP MILL AND INLAY ON US-169 IN ANDERSON COUNTY	9.3	Milling And Overlay	10,672	SM-RIP	2014
Anderson	U169	GRADING	8.7	Grade, Bridge & Surfacing	17,000	MM-RIM	2017
Atchison		UNION PACIFIC & 334TH ROAD NORTHWEST OF HURON	0.0	Flashing Light Signal	250	LC-RXR	2013
Atchison	C0000	BRIDGE REPLACEMENT IN ATCHISON COUNTY	0.3	Bridge Replacement	408	LC-RES	2014
Atchison	K007	K-7 IMPROVEMENTS IN ATCHISON COUNTY	3.1	Sealing	359	LC-K1R	2014
Atchison	K007	K-7 IN ATCHISON COUNTY (FY 2013 1R PROJECT)	5.1	Milling And Overlay	485	SM-IRR	2013
Atchison	K009	K-9 IN ATCHISON COUNTY (FY 2013 1R PROJECT)	4.9	Asphalt Pavement	471	SM-IRR	2013
Atchison	K074	CULVERT REPLACEMENT ON K-74 IN ATCHISON COUNTY	0.0	Grade & Culvert	432	SM-PCR	2015
Atchison	K116	K-116 IN ATCHISON COUNTY (FY 2013 1R PROJECT)	7.0	Recycle & O-lay	665	SM-IRR	2013
Atchison	U059	US-59 IMPROVEMENTS IN ATCHISON COUNTY	2.3	Milling And Overlay	653	LC-K1R	2013
Atchison	U073	SLOPE PROTECTION IN ATCHISON COUNTY ON US-73	0.0	Slide Repair	45	SM-CMN	2013
Atchison	U159	BRIDGE REPLACEMENT IN ATCHISON COUNTY	0.0	Bridge Replacement	0	SM-PBR	2017
Barber		REPLACE BRIDGE ON LOCAL ROAD 88 IN BARBER COUNTY.	0.2	Grade, Bridge & Surfacing	657	LC-RES	2013
Barber	U160	REPLACE BRIDGE ON US-160 IN BARBER COUNTY	0.0	Bridge Replacement	1,026	SM-PBR	2014
Barton		CULVERT IMPROVEMENTS IN BARTON COUNTY	33.0	Grading	545	LC-RES	2014
Barton		KANSAS WETLANDS	0.0	Scenic Or Historic Hwy Progs	95	MM-SBW	2013
Barton	C0000	BRIDGE REPLACEMENT IN BARTON COUNTY	0.2	Grade & Bridge	470	LC-RES	2013
Barton	K004	BRIDGE REPLACEMENT IN BARTON COUNTY	0.0	Bridge Replacement	1,234	SM-PBR	2013
Barton	K004	REPLACE BRIDGE ON K-4 IN BARTON COUNTY	0.0	Funds Only	75	SM-PBR	2014
Barton	U056	BRIDGE IMPROVEMENTS & ROAD RECONSTRUCTION	1.7	Bridge Replacement	0	SM-PBR	2016

@ Note: Program Categories and Subcategories

\* Blanks indicate project does not have the construction work phase.

See page B-2 for breakdown of categories and subcategories.

12/01/2012

County	Route	Location Description	Length (Miles)	Type of Work	Est. FY Const. Cost (1,000)	Prog Cat & SubCat @	Fiscal Year
Barton	U056	ROAD IMPROVEMENTS IN GREAT BEND ON US-56	2.0	Surfacing	589	LC-K1R	2014

## Kansas Airport Improvement Program

### Project Summary by County - FY 2013

County	Project	Total Cost	State Funds	Local Funds	FY
Butler	Airport Development Plan at Beaumont	\$40,000	\$38,000	\$2,000	2013
	Widen & O-Lay Runway 17-35 at Benton	\$499,950	\$449,955	\$49,995	2013
	Relocate Fuel System at Benton	\$31,467	\$28,319	\$3,147	2013
Dickinson	Remark Runway at Abilene	\$20,000	\$15,000	\$5,000	2013
Gove	Airport Development Plan Ph. II at Quinter	\$40,000	\$38,000	\$2,000	2013
Hamilton	Seal Cracks Rwy 13-31 and Twys at Syracuse	\$8,800	\$7,920	\$880	2013
	Emergency Fuel Syst Repair at Syracuse	\$45,000	\$40,500	\$4,500	2013
Harper	Install PAPIs at Harper	\$185,000	\$166,500	\$18,500	2013
	Replace Fueling Syst at Harper	\$110,000	\$99,000	\$11,000	2013
Haskell	Self-Service Fueling Syst at Satanta	\$102,500	\$92,250	\$10,250	2013
	Replace Airfield Lighting Syst at Satanta	\$207,000	\$186,300	\$20,700	2013
Hodgeman	Repair Airfield Pavements at Jetmore	\$286,600	\$257,940	\$28,660	2013
Kiowa	Bury Overhead Power Lines at Greensburg	\$300,000	\$270,000	\$30,000	2013
Labette	Install Fueling Syst at Oswego	\$100,000	\$90,000	\$10,000	2013
Lane	Airport Development Plan Ph II at Dighton	\$30,000	\$28,500	\$1,500	2013
	Land Acquisition; Remove Tower at Dighton	\$677,240	\$609,516	\$67,724	2013
Lincoln	Replace Restrooms at Lincoln	\$29,146	\$26,100	\$3,046	2013
Norton	Repair and Remark Runway at Norton	\$100,327	\$89,226	\$11,101	2013
Phillips	Self-Service Fueling Syst at Phillipsburg	\$50,000	\$45,000	\$5,000	2013
Rooks	Self-Service Fueling Syst at Rooks Co	\$100,125	\$82,800	\$17,325	2013
Sedgwick	Tree Removal at Rose Hill	\$7,806	\$7,025	\$781	2013
	Airport Development Plan at Rose Hill	\$40,000	\$38,000	\$2,000	2013
	Remove Bldg; Reroute Road at Rose Hill	\$9,500	\$8,550	\$950	2013
Sheridan	Repair Airfield Pavements at Hoxie	\$75,000	\$67,500	\$7,500	2013
Sherman	Reconst Barrel Hangar Apron at Goodland	\$150,000	\$112,500	\$37,500	2013
	Reconst T-Hangar Apron at Goodland	\$420,000	\$315,000	\$105,000	2013
Smith	Self-Service Fueling Syst at Smith Center	\$18,457	\$16,612	\$1,845	2013

County	Project	Total Cost	State Funds	Local Funds	FY
Stafford	Airport Development Feasibility Study at Stafford	\$40,000	\$38,000	\$2,000	2013
Sumner	Fuel Tank Leak Detection at Wellington	\$15,250	\$11,438	\$3,812	2013
Thomas	Repair Joints & Pvmt, Taxiways & Ramp at Colby	\$72,000	\$54,000	\$18,000	2013
	<b>TOTALS:</b>	<b>\$3,797,701</b>	<b>\$3,317,332</b>	<b>\$480,369</b>	

# ARRA Rail Projects

## Rail Service Improvement Fund

Many areas of the state no longer have service from Class I railroads. Short line railroads provide rail service to such areas, provide an alternative to trucks for freight (primarily grain) shippers, and keep rural areas of the state connected to the national rail network as well as national and international markets for Kansas grains and products. This alternative provides competition and helps keep shipping rates down. It also reduces the number of trucks that would otherwise be on Kansas roads and highways. This in turn avoids increased maintenance and rehabilitation costs for those roads.

The Rail Service Improvement Fund component of the CTP is administered by KDOT's freight and rail unit. The fund makes available to short line railroads and port authorities operating in Kansas, and shippers and local units of government in coordination with the serving railroad, low-interest, long-term (ten-year) loans and grants to be used primarily for track rehabilitation, capacity improvement and economic development projects. Funds may also be used for financing and acquisition activities and the purchase of rolling stock.

Project Number	Rail Line Segment	Grant Amount	Loan Amount	Project Description
106 RF 0001-01	Cimarron Valley Railroad	\$3,000,000	\$2,000,000	Total project included \$15,000,000 for 100,000 ties, 560 carloads of ballast, 150 miles of tamping and 10 miles of rail replacement. KDOT, CVR and Port Authority of the Southwest contributed \$5,000,000 each to the total project. All tie work and installation of ballast and tamping will be done by year end 2012. Rail installation will continue to proceed over the next two years.
106 KA 2637-01	Kyle Railroad Tiger III project	\$8,210,119	(\$408,283 state, \$1,233,741 Kyle railroad, \$6,568,095 in Federal funds)	The project goes from Solomon to Downs (84 miles) and includes 50,000 ties, 50,000 tons of ballast and upgrades of 24 crossings and 14 bridges. The work will be done by third quarter calendar year 2013.

## State/Federal Public Transit Programs - ARRA Contracts

### FY 2013 Coordinated Transit District (CTD) Operating

Coordinated Transit District (CTD) Operating	Counties Served	Total Operating Costs	Local Share	State Share	Federal Share	Total Vehicle Costs	Local Share	State Share	Federal Share
