

APPENDIX

to the

KANSAS DEPARTMENT OF TRANSPORTATION'S

2014 Annual Report

This appendix contains additional transportation information including:

- Financial Compliance
- Project Selection Criteria
- Project list detailing projects scheduled for improvement during FY 2014-2020, projects completed in FY 2013 and projects under construction as of November 2013. Also list of aviation, rail and public transit projects.
- Transportation Revolving Fund
- Modal Information
- Federal Fund Exchange Program

Section A

Financial Compliance

Each year, the Department provides financial information to the Governor and Legislature. This information includes both a summary of financial information and a statement of assurance that a Comprehensive Annual Financial Report (CAFR) of all funds for the preceding year has been prepared. The financial report must include a report by independent public accountants attesting that the financial statements present fairly the financial position of the Department in conformity with generally accepted accounting principles (GAAP).

The Department will prepare a CAFR for Fiscal Year (FY) 2013. A report of the independent public accountants,

RubinBrown, LLP, will be included in the CAFR after audit completion. Also included in the CAFR is a certificate of achievement awarded to the Department for excellence in financial reporting for the FY2012 CAFR. This award marks the 25th consecutive year that the Department has received the award.

The complete CAFR will be available by contacting the Department's Office of Public Affairs at 785-296-3585 (Voice)/ (TTY). The FY 2013 CAFR will also be available under the KDOT Financial Disclosures section of the Department's website at <http://www.ksdot.org/burFiscal/default.asp>.

FY 2013 FINANCIAL INFORMATION

The following schedule is a summary of revenues and expenditures for all funds for FY 2013. All amounts are in thousands.

<u>REVENUES</u>	<u>2013</u>	<u>Percent of Total</u>
Motor Fuel Taxes	\$ 412,943	29 %
Vehicle Registrations and Permits	198,120	14
Intergovernmental	445,659	32
Sales and Use Taxes	320,756	23
Investment Earnings	5,844	0
Other	23,162	2
Transfers from Other State Funds	1,636	0
Total revenues	1,408,120	100
		%

<u>EXPENDITURES</u>	<u>2013</u>	<u>Percent of Total</u>
Current Operating		
Maintenance	132,830	9 %
Preservation	397,608	28
Modernization	67,102	5
Expansion and enhancement	247,549	17
Communications system	7,378	1
Local Support	248,413	17
Rail, Air and Public Trans. Management	14,826	1
Management	69,764	4
Debt Service		
Principal	67,090	5
Interest and fees	71,316	5
Transfers to Other		
State Funds	115,366	8
Total expenditures	1,439,242	100 %
OTHER SOURCES (uses)		
Revenue Bond Proceeds	581,988	147
Total other	(186,227)	(47) %
	395,761	100
Excess (Deficiency) of Revenues and Other Sources Over Expenditures	364,639	100 %

Project Selection Criteria

In May 2010, the Kansas Legislature passed the transportation program, Transportation Works for Kansas (T-WORKS) that covers a 10- year period from FY 2011 through FY 2020. In T-WORKS, the Kansas Department of Transportation (KDOT) was directed to develop a strategic approach to highway project selection that allows for greater stakeholder input and flexibility. KDOT is piloting this new selection process when determining the construction projects for this program. To achieve more flexibility in programming, many projects under T-Works are being selected on a rolling 2- year basis rather than complete project selection at the start of the program as was done in past transportation programs.

Under T-WORKS, construction projects are categorized into four core programs: Preservation, Modernization, Expansion and Local Construction. The four core programs group construction projects with similar work types and scopes together. Projects within each of these major programs are further grouped together based upon similar funding sources or project-types into more specific groups or subcategories. In the new project selection process, each of the core programs have evaluation criteria that are used for making project selections.

For the Preservation program, engineering factors continue to be an effective method for project selection and remain the sole method used for selecting projects in this program. However, in the Modernization and Expansion programs, engineering factors were augmented with other factors. In the Modernization program, project selection combined historically strong engineering-based formulas with regional priorities and in the Expansion program, project selections combined engineering factors with regional priorities and economic impacts. In each of the programs, proposed projects are scored and ranked based upon how well the proposed projects address the relevant evaluation criteria. Then, selections are made based upon the combined information. The addition of these new factors help ensure that a project is not only a sound engineering

project but is also a project that aligns with the goals and priorities of a region and in the case of expansion projects provides economic benefits. Project selection for the fourth core program, Local Construction, remains unchanged and is determined at the local level by local entities throughout the state with the coordination of KDOT's Bureau of Local Projects.

Engineering factors for the preservation, modernization and expansion programs are evaluated using the engineering based formulas KDOT already has established. Regional priorities are determined through local-consult meetings held periodically throughout the state. To date under T-WORKS, KDOT has conducted local consult meetings twice- once in late 2010 and again in late 2012. The next consult meetings are anticipated to occur in late 2014. Through these meetings and through the continued interaction between the area and district engineers with local entities, KDOT maintains a dialogue with stakeholders throughout the state concerning regional focus and priorities. The third factor, economic impact is assessed by the agency through the piloting of the computer modeling package-Transportation Economic Development Impact System (TREDIS). TREDIS estimates the potential increases in jobs, income and economic output for a region resulting from a specific transportation improvement.

The chart on the following page illustrates the selection criteria applied to T-WORKS projects in each of the four core programs and the weight given to each criterion.

The Preservation program protects the public's investment in its highway system by maintaining the "as built" condition of roads and bridges. Projects in this group range from roadway surfacing rehabilitation and bridge repairs to pavement and bridge replacement.

The engineering factors used when selecting preservation projects relate to the pavement and bridge conditions, like remaining pavement life, rutting, and cracking for roads and joint or bridge deck condition and/or load ratings for bridges. Roads and bridges

T-WORKS Project Selection Criteria

Program	Engineering Factors	Regional Priorities	Economic Impact	Other
Preservation	100%			
Modernization	80%	20%		
Expansion	50%	25%	25%	
Local Construction				100%

are evaluated on an annual basis and projects are selected based upon this annual review. Additionally, within the preservation program, are smaller scale set-aside projects that address such issues as signing, pavement markings and railroad crossing surfaces. These set-aside projects are so named because the funds to perform the work is “set aside” or reserved specifically for the type of work designated by the set-aside category. The set-aside group of projects is selected on an annual basis like the other preservation projects. Since the Preservation program of projects is selected a year at a time, the majority of the preservation projects listed in this report are for work to be performed in fiscal year 2014 or early 2015. Selecting and programming projects on an annual basis allows KDOT to maintain flexibility and responsiveness in their project selection during the T-WORKS program.

The second core program, Modernization, focuses on improvements to the existing system. Projects under this program are designed to enhance safety and/or improve roadways by adding shoulders, flattening hills, straightening curves and upgrading intersections on already existing roadways. In May 2011, the final selection of the major modernization projects to be completed under T-WORKS was made. These projects were then jointly announced in late May and June 2011 by the Governor and Secretary of

Transportation. With the majority of the modernization program already selected, the projects to be undertaken during T-WORKS appear in this report. The scope of the “major” or more complex modernization projects require that selections be made early in the transportation program to ensure that there is sufficient time for the design and construction of the project during the T-WORKS program period.

Additionally, within the modernization program are the practical improvement projects which are developed out of the preservation program annual review of roads and bridges. Projects within the practical improvement umbrella are hybrids with elements of both the preservation and the modernization programs. However, the projects have greater complexity and scope than preservation projects making them a better fit for the modernization program. In contrast to other modernization projects, practical improvement projects are not selected in advance but rather are selected on a need basis as determined from the annual review. Project scope pertaining to shoulder improvement is an example of the type of work that is a good candidate for the practical improvement approach. By employing the practical improvement approach, a project may be completed in the most cost-efficient manner feasible. The implementation of this approach enables KDOT to stretch construction dollars and provide the greatest benefit possible for the dollars spent. While most of the modernization funds have been programmed and projects have been selected, a small portion of funding has been reserved to fund the practical improvement projects as they are identified as T-WORKS progresses. In this way, flexibility in scheduling is balanced with the need for early selection of major modernization projects.

The Expansion program, the third principal group under T-WORKS, is intended for projects that expand and enhance the transportation system. Projects in this program concentrate on

improving access by adding new lanes or interchanges, reducing commute time and improving air quality by relieving congestion and enhancing economic development in a region by selecting projects with high economic impact. The expansion program, with the exception of the economic development set aside, was selected in early FY 2011 and announced by the Governor and Secretary of Transportation in May and June 2011. The expansion projects selected to be completed under T-WORKS appear in this report- including all economic development projects selected to date. Due to the complex nature of the Expansion program of projects, early selection is crucial to ensure sufficient planning, design and construction time during the T-WORKS program period.

To maintain some flexibility in scheduling in the expansion program, the economic development projects have been partially selected. The remaining economic development projects will be selected on an ongoing basis throughout T-WORKS as viable projects surface. In this way, the agency maintains some flexibility to respond to new opportunities as they emerge throughout the remainder of the T-WORKS program.

The fourth program, Local Construction, focuses on improvements to city or county roads. The work encompassed by this program is varied in nature ranging from safety oriented, to maintenance of existing roadway, to small-scale expansion type projects. Regardless of the project focus, the common denominator for all projects is that the work is always on a city or county road. Many of the subcategories within the Local Construction program like the City Connecting Link Resurfacing Program (KLINK) and Transportation Enhancement (TE) to name only two are partnership programs in which KDOT or the federal government partner with local entities to share the costs and enable local dollars to stretch further. To generate candidate projects, many partnership programs employ a solicitation process in which prospective projects are solicited through an application. The pool of project applications is prioritized based on program specific criteria. Then projects are selected

in order of priority and programmed until the available funds are expended. The schedule for project solicitation varies but most of the partnership programs solicit projects on an annual basis. In other subcategories within the local construction program, the locals are solely responsible for project selection and development. To assist local entities in their selection process KDOT makes available bridge inspection data, traffic accident data and traffic count data among other resources. For local construction, the Bureau of Local Projects is the primary point of contact within KDOT. For detailed information concerning the local construction program and specifically the partnership programs visit the T-WORKS website, the link is provided below.

For an in depth look at the projects selected and undertaken during T-WORKS- including those projects in the core programs, KDOT has established a website that provides information about the entire T-WORKS program. This website is a continued effort on KDOT's part to gain greater stakeholder input. To accomplish this goal, the website is not only a source of more information but is interactive with sites throughout that provide opportunities to submit questions, opportunities for participation in discussions and opportunities for comment submission. The T-WORKS website is located at the following link <http://kdotapp.ksdot.org/TWorks/> .

Project Listings

The project listings can be found starting on page B-1.

Transportation Revolving Fund

The Transportation Revolving Fund was a statewide revolving loan fund that provided loans to local units of government for financing road and bridge improvements on and off the State Highway System. Since August 2004, the fund provided 116 executed loans totaling \$140 million to 66 cities and counties. KDOT is currently reviewing the status of the TRF program.

Modal Information

Public Transportation

Public transportation in Kansas is supported by one state program and five Federal Transit Administration (FTA) funding programs. These funding programs, which are augmented by local match, provide the funding for the 83 general public transit service providers and the 59 transit providers that service elderly persons and persons with disabilities throughout the state. Without these programs, many citizens would have no access to public transportation.

The FTA 49 U.S.C. 5311 program provides funding to support rural and small urban (under 50,000 population) transportation projects that serve the general public. Funds are available for both capital and operating assistance. For Federal Fiscal Year 2013, the 5311 program for the state of Kansas was funded in the amount of \$10,953,970.00.

FTA 49 U.S.C. 5310 provides federal funds to private nonprofit entities or public agencies approved by the state to purchase vehicles and related equipment that meet the special needs transportation specifically for elderly persons and persons with disabilities. Urbanized areas and nonurban areas with populations under 50,000 are eligible for 5310 funds. For Federal Fiscal Year 2013, the 5310 program for the state of Kansas was funded in the amount of \$1,263,043.00.

Prior to MAP-21, FTA 49 U.S.C. 5316 provided federal funds to local governmental agencies and nonprofit entities for capital and operating expenses of equipment, facilities, and associated capital maintenance items related to providing access to jobs. In Federal Fiscal Year 2013, under MAP-21 the 5316 program for the state of Kansas was rolled into the FTA 49 U.S.C. 5311 program.

Prior to MAP-21, FTA 49 U.S.C. 5317 provided federal funds to encourage services and facility improvements to address the transportation needs of persons with disabilities that go beyond those required by the Americans with Disabilities Act. Funding was used for associated capital and operating cost. For Federal Fiscal Year 2013, under MAP-21 the 5317 program for the state of Kansas was rolled

into the FTA 49 U.S.C. 5311 program.

FTA 49 U.S.C. 5304 provides funding to support cooperative, continuous and comprehensive planning for making transportation investment decisions statewide and in nonmetropolitan areas. For Federal Fiscal Year 2013 the state of Kansas was funded in the amount of \$169,089.00.

FTA 49 U.S.C. 5339 provides funding to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities. For Federal Fiscal Year 2013, the state of Kansas was funded in the amount of \$1,740,998.00

Funding for the state program is available from the Coordinated Public Transportation Assistance Fund. The State Highway Fund provides \$11 million dollars annually for needed transportation services in areas of the state lacking public transit services and to expand, improve and enhance existing services.

Rail Service Improvement Fund

Many areas of the state no longer have service from Class I railroads. Short line railroads provide rail service to such areas, provide an alternative to trucks for freight (primarily grain) shippers, and keep rural areas of the state connected to the national rail network as well as national and international markets for Kansas grains and products. This alternative provides competition and helps keep shipping rates down. It also reduces the number of trucks that would otherwise be on Kansas roads and highways. This in turn avoids increased maintenance and rehabilitation costs for those roads.

The Rail Service Improvement Fund is administered by KDOT's freight and rail unit. The fund makes combination grants and loans available to short line railroads, port authorities operating in Kansas and shippers and local units of government. The low-interest, long-term (10-year) loans and grants are used primarily for track rehabilitation, capacity improvement and economic development projects. Funds may also be used for financing and acquisition activities and the purchase of rolling stock. The fund receives \$5 million annually.

Kansas Airport Improvement Program

When time is of the essence, no other means of travel can fulfill time-sensitive requirements the way air transportation does. Airports serve an important role in the state transportation system. The foremost role is to support economic activity generated by companies that rely on airports in their daily business. According to the 2010 Kansas Aviation Economic Impact Study, aviation contributes over \$20 million to the Kansas economy each year, the highest per capita impact of any state.

Also important are medical services, both fly-in by professionals as well as emergency evacuations. In addition, agricultural applications, charters, a link to the national air transportation system, private air travel, and many other opportunities are available by virtue of our Kansas system of public-use airports.

The Kansas Airport Improvement Program goals include:

- ♦maintain the system’s runway condition rating of “very good”;
- ♦minimize surface travel time to air ambulance pick-up locations;
- ♦improve safety, and;
- ♦enhance airport and community economic development appeal.

The program is open to public-use airports in Kansas as defined in K.S.A. 75-5061. Projects under this program are solicited annually to preserve or modernize facilities, to design or plan continued development and to improve or add equipment. A key element of the program is a local matching requirement of between 5 and 50 percent, which is determined by community population, category of project and type of ownership. In FY 2014 the program was increased from \$3 million to \$5 million per year as part of the T-Works Transportation Program. This \$5 million per year in state funds, combined with local matching funds, resulted in over \$27 million in airport improvements for FY 2014 alone.

Since its inception in FY 2000, the program has supported 433 projects at 113 public-use airports.

Federal Fund Exchange Program

The federal fund exchange program is a voluntary program that allows a local public agency (LPA) to trade all or a portion of its federal funding allocation in a specific federal fiscal year with KDOT in exchange for state transportation dollars or with another LPA in exchange for their local funds.

Under this program the LPA may develop projects following local procedures, criteria, and standards. All work performed shall be consistent with the Kansas Statutes, applicable regulations, and normal engineering practices for the work being done. Any work performed on the state highway or city connecting link will require coordination with the local KDOT Area Office.

Only LPAs that are eligible to receive a federal funding allocation may participate in the federal fund exchange program. Eligible LPAs include all counties in the state and cities with populations greater than 5,000 that are not located in a Transportation Management Area (TMA). Currently the only TMAs in Kansas are the Mid America Regional Council (MARC – Kansas City Region) and the Wichita Area Metropolitan Planning Organization (WAMPO).

Participation in the program is optional. An eligible LPA may choose to exchange its federal funds or it may use the funds to develop a federal aid project following the established procedures.

In general, KDOT will annually determine the amount of state funds available for exchange at the time the federal funding is confirmed for a federal fiscal year (FFY). KDOT may conduct more frequent reviews of available funding when necessary as a result of funding or budgetary considerations. Around the beginning of each new FFY, KDOT’s Bureau of Local Projects will notify the LPAs in writing of the amount they are eligible to receive for that FFY.

For more details on this program, see KDOT’s website at www.ksdot.org/burlocalproj/.

PROJECT LISTINGS

Sections B, C, D, E

This section contains the separate project lists.

The projects scheduled for improvement during FY 2014-2020, projects completed in FY 2013, and projects under construction as of November 2013 are organized in alphabetical order by county. Each one includes a project description, length, construction cost or estimated construction cost, and work type.

K.S.A. Supp. 68-2315, as amended, requires information concerning construction work completed, construction work in progress, and planned projects for future years. A detailed explanation of the methods or criteria employed in the selection of projects is also required and can be found in this Appendix.

In addition to state highway construction project lists are aviation, rail, and public transit project listings.

NOTE: This section, as well as previous Annual Reports, is available on KDOT's Internet site at www.ksdot.org/publications.asp, in the Report and Studies listing.

The project lists are:

- *Projects scheduled for improvement during FY 2014-2020, pages B-1 to B-34.*
 - *Projects completed in FY 2013, pages C-1 to C-42.*
 - *Projects under construction as of November 2013, pages D-1 to D-52.*
 - *Aviation, rail and public transit projects, E-1 to E-5.*
-

PROGRAM CATEGORIES

The following is a breakdown of the subcategories within each of the Program Categories.

LC Local Construction

HAZ Safety Projects (HSIP, off system)
HES Safety Projects (HSIP, on system)
K1R KLINK Resurfacing
K3R Geometric Improvements for KLINKs
LOC Local Construction (Local Administered & Let)
RES Local Construction (KDOT Administered & Let)
RRX Railroad Crossing Protection (HSIP, on system)
RXR Railroad Crossing Protection (HSIP, off system)
SRT Safe Routes To Schools (Federal)
TEX Transportation Enhancement Program

MM Modernization Safety & Shoulder Improvements

1RS Resurfacing w/Improvements (Practical Design)
COR Corridor Management
GFU Guard Fence Upgrades (No Longer Used)
GSI General Safety Improvement Projects
IRI Interstate Roadway Geometric Improvements
KCC KCC Railroad Crossing Projects
LTG Highway Lighting
MPR Miscellaneous (No Longer Used)
OVC Oil Overcharge (No Longer Used)
RIM Non Interstate Geometric Improvements
SAF Safety Projects (State)
SBW Scenic Byway

SE Expansion/Enhancement Adding Something New

AAR Advanced Acquisition of ROW
EDP Economic Development
IRC Interstate Capacity Impr (old IRI split to Exp/Enh)

SE Expansion/Enhancement Adding Something New

ITS Intelligent Transportation Systems (ITS)
RIC Non Interstate Capacity Impr (old RIM split to Exp/Enh)
RSL Local Partnership Railroad Grade Separations
RSP New Railroad Grade Separations (State)
SEB System Enh. – Bypasses (retired)
SEC System Enh. – Corridors (retired)
SEI System Enh. Interchanges/Separations (retired)
SEW System Enh. Wichita Railroad Crossings (retired)

SM Preservation Taking Care of What We Have

1RR Non Interstate Resurfacing (PMS 1R)
BCR Culvert Repair
BSP Bridge Painting
BSR Bridge Repair
CMN Contract Maintenance (PMS)
EMR Emergency Repair
IRP Interstate Basic Impr (old RIM split to Preservation)
ISR Interstate Resurfacing (PMS)
NHP Miscellaneous for Preservation
PBR Bridge Replacement/Rehabilitation
PCR Culvert (to Bridge) Rehabilitation
PDR Bridge Redeck
PMR Pavement Marking
RIP Non Interstate Basic Impr (old RIM split to Preserv)
RRS Railroad Crossing Surfacing
SLR Signing & Lighting Repair and Replacement
SOS Highway Signing
SRR State Route Removal Program

County	Route	Location Description	Length (Miles)	Type of Work	Est. FY Const. Cost (\$1,000's)	Prog Cat & Subcat	Fiscal Year

Kansas Airport Improvement Program Project Summary by County - FY 2014

County	Project	Total Cost	State Funds	Local Funds	FY
Atchison	Acquire Land for Development at Atchinson (FAA)	\$396,100	\$19,805	\$376,295	2014
	Reconst T-Hangar Taxilane at Atchinson (FAA)	\$480,266	\$24,013	\$456,253	2014
	Repair AWOS at Atchinson	\$8,500	\$4,250	\$4,250	2014
Barber	Environmental Assessment at Medicine Lodge (FAA)	\$64,605	\$3,231	\$61,374	2014
Barton	Apron Reconstruction at Great Bend (FAA)	\$3,039,000	\$151,950	\$2,887,050	2014
Butler	AWOS-III at Augusta	\$100,000	\$75,000	\$25,000	2014
	AWOS-III at Benton	\$100,000	\$90,000	\$10,000	2014
	Install REILs Rwy 4-22 & 15-33 at El Dorado	\$62,000	\$31,000	\$31,000	2014
Cheyenne	Repair Runway at St. Francis	\$12,000	\$10,800	\$1,200	2014
	Rpr Cracks, Taxiways & Ramp at St. Francis	\$23,414	\$21,073	\$2,341	2014
Coffey	Repair Airfield Pavements at Burlington	\$87,300	\$78,570	\$8,730	2014
Cowley	Reconst Taxiway A at Winfield (FAA)	\$3,513,700	\$175,685	\$3,338,015	2014
Ford	Seal Cracks Airfield Pavements at Dodge City	\$20,000	\$10,000	\$10,000	2014
Franklin	Acquire Land for Approaches at Ottawa (FAA)	\$201,312	\$10,066	\$191,246	2014
Geary	Fuel Containment Facility at Junction City	\$19,100	\$9,550	\$9,550	2014
Gove	Acquire Land for New Airport	\$640,000	\$576,000	\$64,000	2014
Greeley	Design Parallel Taxiway at Tribune (FAA)	\$80,200	\$4,010	\$76,190	2014
Hamilton	Design Rprs to Rwy 13-31 & Twy at Syracuse	\$100,000	\$95,000	\$5,000	2014
Harper	Reconst Runway 17-35 at Anthony (FAA)	\$1,845,980	\$92,299	\$1,753,681	2014
	Acquire Land for Rwy Extension at Anthony	\$110,000	\$99,000	\$11,000	2014
	Design Runway Extension at Anthony	\$60,000	\$57,000	\$3,000	2014
Harvey	Reconst Runway 17-35 at Newton (FAA)	\$7,609,690	\$380,484	\$7,229,206	2014
Johnson	Drainage Improvement at Gardner (FAA)	\$271,200	\$13,560	\$257,640	2014
Kearny	Design Access Road & Bridge at Lakin	\$95,000	\$90,250	\$4,750	2014
	Const Access Road & Bridge at Lakin	\$644,400	\$579,960	\$64,440	2014
Kingman	Repl REILs Rwy 18-36 at Kingman	\$40,000	\$30,000	\$10,000	2014
Kiowa	Design Airport at Greensburg	\$212,000	\$201,400	\$10,600	2014

County	Project	Total Cost	State Funds	Local Funds	FY
Labette	Const Fuel Truck Access Road	\$24,800	\$22,320	\$2,480	2014
Lane	Design New Airport at Dighton	\$157,900	\$150,005	\$7,895	2014
Lincoln	Acquire Land for New Rwy at Lincoln	\$400,000	\$360,000	\$40,000	2014
Logan	Design Apron Construction at Oakley (FAA)	\$241,540	\$12,077	\$229,463	2014
Lyon	Repair Rwy, Twy & Apron at Emporia (FAA)	\$88,560	\$4,428	\$84,132	2014
Marshall	AWOS-III at Marysville	\$100,000	\$75,000	\$25,000	2014
	Const Connector Twy at Marysville	\$159,600	\$119,700	\$39,900	2014
McPherson	Rehab South T-Hangar Taxilane at McPherson (FAA)	\$437,036	\$21,852	\$415,184	2014
	Emergency AWOS Repair at McPherson	\$20,000	\$10,000	\$10,000	2014
Mitchell	Acquire Land to Extend Rwy 17-35 at Beloit (FAA)	\$95,220	\$4,761	\$90,459	2014
Montgomery	Map Exist Airport Circuits at Independence	\$40,000	\$38,000	\$2,000	2014
	Design Terminal Upgrade at Independence	\$19,000	\$18,050	\$950	2014
	Upgrade Restrooms at Independence	\$9,360	\$7,020	\$2,340	2014
Neosho	Rehab Airfield Lighting at Chanute (FAA)	\$585,500	29,275	\$556,225	2014
Norton	Install PAPIs, REILs and Windcone (FAA)	\$143,500	\$7,175	\$136,325	2014
Rawlins	Emerg AWOS Rpr; Repl Beacon at Atwood	\$10,000	\$9,000	\$1,000	2014
Saline	Update Airport Planning Docs at Salina (FAA)	\$527,980	\$26,400	\$501,580	2014
	Repl N Taxiway Lighting Syst at Salina	\$517,980	\$258,990	\$258,990	2014
Scott	Rehab Airfield Lighting at Scott City (FAA)	\$325,420.00	\$16,271.00	\$309,149	2014
Sedgwick	Rpr Cracks Airfield Pavements at Rose Hill	\$3,487	\$3,139	\$349	2014
	Repl Overhead Electrical Service at Rose Hill	\$64,000	\$57,600	\$6,400	2014
	Rpr & Reconst Access Rd Syst at Wichita Jabara	\$1,170,000	\$400,000	\$770,000	2014
Sherman	Reconst Taxiway A at Goodland (FAA)	\$1,079,329	\$53,966	\$1,025,363	2014
Stanton	Rpr Fueling Syst; Add Self-Svc at Johnson City	\$55,264	\$49,738	\$5,526	2014
Stevens	Replace T-Hangar Ramps at Hugoton	\$985,000	\$738,750	\$246,250	2014
Sumner	Repl Underground Fuel Syst at Wellington	\$131,568	\$98,676	\$32,892	2014
Thomas	Repair Joints/Pvmt, Twys & Ramp at Colby	\$89,300	\$66,975	\$22,325	2014
Wichita	Repair Runway Cracks at Leoti	\$31,024	\$30,600	\$424	2014
	TOTALS:	\$27,348,135	\$5,623,723	\$21,724,412	

Rail Service Improvement Fund

Many areas of the state no longer have service from Class I railroads. Short line railroads provide rail service to such areas, provide an alternative to trucks for freight (primarily grain) shippers, and keep rural areas of the state connected to the national rail network as well as national and international markets for Kansas grains and products. This alternative provides competition and helps keep shipping rates down. It also reduces the number of trucks that would otherwise be on Kansas roads and highways. This in turn avoids increased maintenance and rehabilitation costs for those roads.

The Rail Service Improvement Fund is administered by KDOT's freight and rail unit. The fund makes available to short line railroads and port authorities operating in Kansas, and shippers and local units of government in coordination with the serving railroad, low-interest, long-term (ten-year) loans and grants to be used primarily for track rehabilitation, capacity improvement and economic development projects. Funds may also be used for financing and acquisition activities and the purchase of rolling stock.

Project Number	Rail Line Segment	Grant Amount	Loan Amount	Project Description
28 RF-0035-01	Garden City Western RR	89,611	119,481	Replace six aging switches in Garden City rail yard; cross tie replacement; ballast and OTM replacement
63 RF-0036-01	Kansas and Oklahoma RR	537,941	717,255	Replace rail, cross ties, ballast and OTM between the new rail yard/locomotive repair shop just north of Cherryvale (MP 150.8) to MP 155.3
103 RF-0034-01	Kansas and Oklahoma RR	752,849	1,003,798	Construction of 11,000 feet of track to re-establish rail service to grain elevator in Fredonia; 11 at-grade rail rehabilitations; two bridge repairs; one signalized crossing repair; two culvert installations.
