K-14 in Mitchell Co. gets Resurfaced

Beginning this week a section of K-14 in Mitchell County will be under construction. Plans call for the work zone to begin at the Lincoln/Mitchell County line then north to the south city limit of Beloit. The project picks up again at the K-14/US-24 junction on the north end of Beloit then north in Mitchell & Jewell Counties to the K-14/US-36 junction east of Mankato. The surface of the road will be milled to a depth of 2 inches; the millings will then be enriched and relayed followed by a chip seal to keep out moisture.

Traffic will be carried through the work zone by pilot car. Delays of no more than 15 minutes can be expected. There is a lane width restriction of 11 ft within the work zone. Construction will take place during daylight hours only.

Plans call for the project to be completed on or about October 5th weather permitting.

Dustrol Inc. of Towanda, KS is the prime contractor. Total cost for this project is \$4,182,570.00.
