KDOT Web Sites Temporarily Unavailable

Due to computer network maintenance, the Kansas Department of Transportation public internet site (www.ksdot.org) will be temporarily unavailable Friday, September 12, from 5:00 p.m. to 9:00 p.m. and from Saturday, September 13, 7:30 a.m. to Sunday, September 14, 5:00 p.m. As a result, the 511 Traveler Information Web site (511.ksdot.org) will also be unavailable during this time.

While the site is down, travelers can get road condition, construction/detour and travel weather information by calling 5-1-1 from anywhere in Kansas or 1-866-511-KDOT (5368) from anywhere in the U.S. All route-specific information reported on the Kansas 511 Phone System will be current as of 5:00 p.m. on Friday, September 12. Any urgent information, such as flooding or major incidents on major routes, will be updated on the phone system as needed as a general message that callers will hear immediately following the introductory message.

“KDOT understands how disruptive such an outage can be and we apologize for any inconvenience this may cause our traveling public or other customers,” said Anthony Schlinsog, KDOT spokesperson.
