## Survey Work Will Begin On Phillips County Bridge

Starting on February 4, and continuing for approximately three weeks, a survey team from the Kansas Department of Transportation will begin surveying along K-9 Highway in Phillips County.

The survey work will take place approximately 1.8 miles east of U.S. 183. Specifically, the survey will focus on the bridge located over a drainage tributary of the North Fork Solomon River.

The survey is necessary for the detailed design of the replacement of the bridge.

Survey activities will include the use of survey instruments on the ground to determine locations of features within the survey corridor. When it becomes necessary for crew members to enter private property, they will first obtain permission from the landowner or tenant.

Michael Selley, L.S., party chief with KDOT, will be in charge of this survey. For more information regarding the land survey, please contact Northwest Kansas Public Affairs Manager Kristen Brands at (785) 877-3315 or [kristenb@ksdot.org](mailto:kristenb@ksdot.org). or visit our T-WORKS website at: [www.ksdot.org/tworks](http://www.ksdot.org/tworks).
