

United Flying Octogenarians

... where the history of aviation is still flying!

Home About Us Membership Newsletter Photo Albums Contact Us

United Flying Octogenarians

Founded in 1982 by a group of 31 aviators over the age of 80, the **United Flying Octogenarians (UFO)** now has a membership of over 1,400 men and women. When each of our members joined, at the age of 80 or older, he or she was still flying as Pilot-in-Command. Today, many of us are no longer at the controls of an aircraft, but our love of aviation still binds us to this elite group.

The UFO is an international, non-profit organization with members in the United States including the U.S. Virgin Islands, Canada, Argentina, Australia, France, and the United Kingdom.
